Main header text to read ‘Howard Town’ to be fabricated individual mild steel open frame letters with laser cut inner letter and back letter. The letters are to be illuminated via red LED diodes mounted to the rear face of the inner letter to create a halo type effect on the back letter.
Main support structure from circular hollow section legs with decorative ‘I’ section bracing rails and top support rail all steel to be galvanized finish.
Fabricated extruded aluminium sign case internal m/steel support frame and aluminium back panel.
The sign cases are to be internally illuminated via fluorescent tubes and switchgear with opal acrylic face panel and applied vinyl graphics
