HERITAGE STATEMENT

CHESHIRE CHEESE – BUXTON

The works proposed at the above site are to upgrade the existing signage & nothing more. The signs proposed are purely to replace in a " like for like " manner to the existing which clearly already have both LBC & Advert Consent .

They will not affect the character & setting of the building in any way , other than the signs will clearly be new & in a cleaner condition .

Any other information has been already supplied in a Design & Access Statement
