

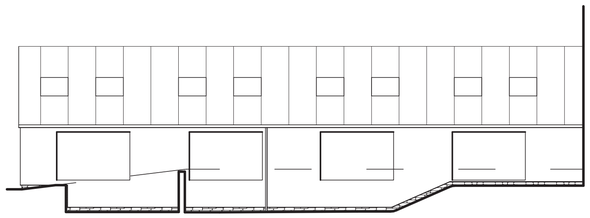
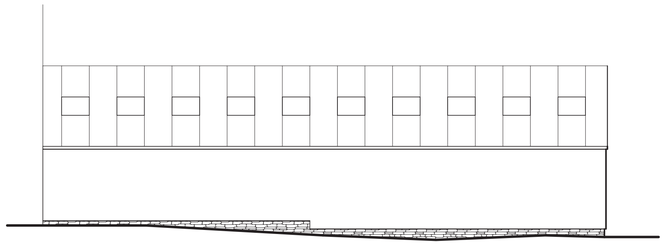
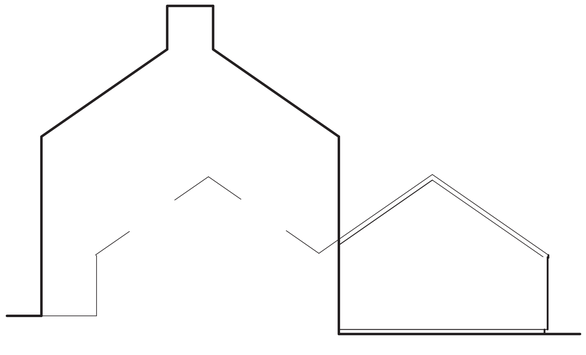
South West Elevation



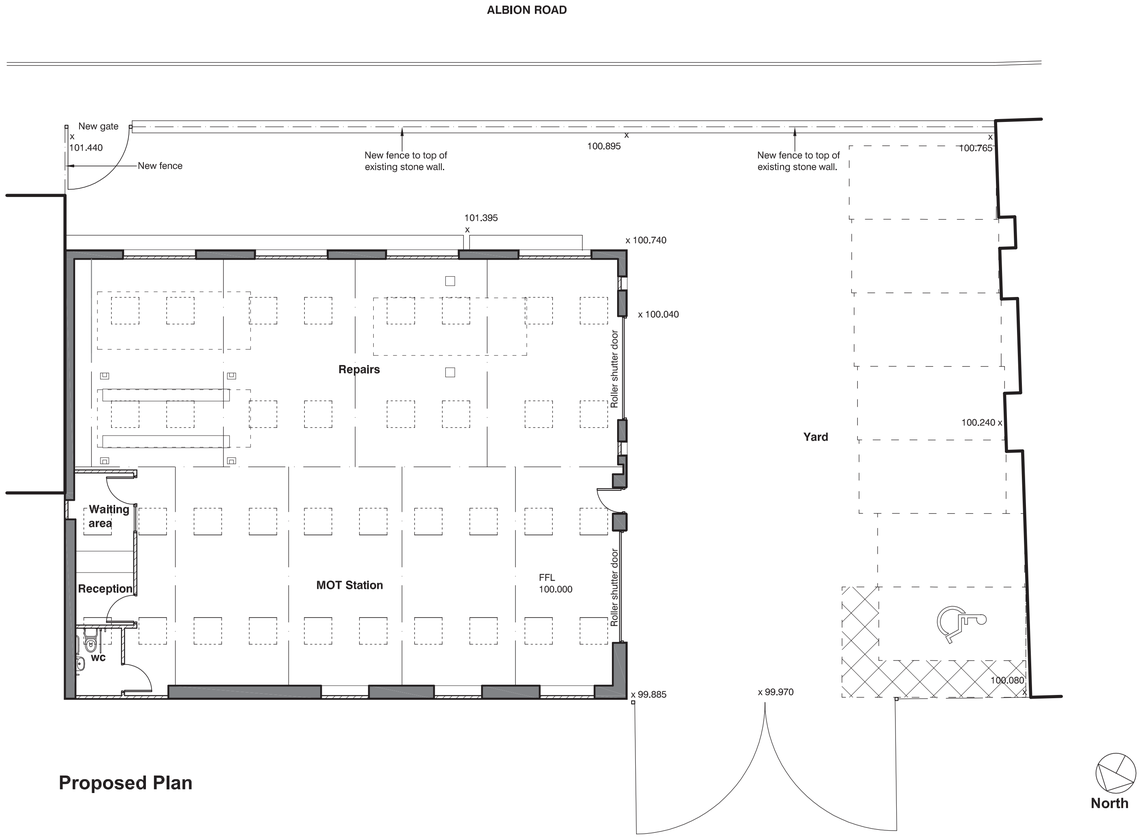
South East Elevation



North West Elevation



North East Elevation



Proposed Plan

Materials

Roof - Asbestos sheeting to be replaced with Merlin Grey metal roof cladding (RAL 180 40 05).

Walls - Walls to be rendered with 'Oatmeal' coloured textured render, by K-Rend (or similar approved).
Existing window openings to South East and South West elevations to be blocked up at internal face, with window recess to remain visible.
Windows to North East and North West to be blocked up at external face and rendered flush with external walls.

Revision A 04.10.2011 Metal cladding to external walls removed and replaced with cement render finish.
