Design and Access Statement.

Proposed porch to side elevation at 47 Pikes Lane, Glossop.

The property is a semi detached house within an established built up residential area, built of brick and render with a slate roof, the house has a single storey extension to the rear.
It is intended to construct a single storey porch to the house main entrance which is situated on the side elevation. The porch will constructed out of brick with a slate roof and PVCu doors to match the existing.
The purpose of the porch is to proved a draught barrier and to allow the internal space at the base of the stairs to be opened up to allow easier access into and movement within the house

Mr M Hambleton
