About the company

Hayles and Howe were established 1978 initially making high quality Georgian and Victorian cornices and ceiling roses in the Bristol area. As the company expanded so did the development and innovation of a wide range of skills whilst ensuring and maintaining high standards of quality.

Today the company works internationally, for both small private and large prestigious clients on an international level. Working in both traditional fibrous plaster as well as specialist Scagliola means that the company can provide clientele with a wide range of design specifications and finished products.

The company has won many awards over the years as the next section details, these awards recognise the expertise of the Hayles and Howe workforce.
