ACK
ANSWERED

High Peak B.C.
Planning Dept,
Municipal Buildings,
Glossop. SK13 8AF.
5.7.2011.

Design and Access Statement: Proposed change of use to part of Unit 9, Dinting Lane Industrial Estate, Glossop.

The premises are an existing industrial unit sited on an existing industrial estate.
It is intended to apply for a change of use of the ground floor of the unit from warehousing to a taxi maintenance/storage area, with associated internal office space.
There will be no structural/building changes to the unit, there is already a vehicle roller shutter door, a separate personnel entrance and shared toilet accommodation with the other occupants of the building, (the office will be created using demountable timber partitioning within the existing floor area).
Six car parking spaces (of the existing 21 No.) will be allocated to this useage, as marked on the plan.

This application is to provide more suitable and useable accommodation for the existing taxi business, currently occupying offices with no maintenance/storage space in Henry St. Glossop.

Mr M Hambleton M Hambleton

Ref: 2402.
