DESIGN AND ACCESS STATEMENT

96, Green Lane, Buxton

Permission is requested to alter the present timber windows, front and rear doors and fascia board into plastic. The existing window frames are warping, causing the double glazing units to fail and the timber fascia is starting to rot slightly.

We already have permission to alter the front windows to plastic on Application HPK/2011/0203 and this application just unifies the whole situation.

Planning permission for this form of alteration has already been approved for our neighbour at No. 94 and as such we see no reason why the same permission should not be granted to No. 96
