SK13 1WW

High Peak Borough Council hereby **PERMIT** this application for **FULL PLANNING PERMISSION** for

Construction of new sports and community building to provide changing rooms & community faciliites with car parking. at Football Fields West Drive Tintwistle Glossop

in accordance with the submitted application, details and accompanying plans listed below subject to the following conditions and reasons:-

Conditions

1. The development to which this permission relates must be begun not later than the expiration of five years from the date of this permission unless some other specific period has been indicated in other conditions given.

2. No development shall commence until samples of the materials to be used in the construction of the external surfaces of the approved development hereby permitted have

……
Michael Green
Planning Applications Manager

been submitted to and approved in writing by the local planning authority. The development shall be carried out in accordance with the approved details.

3. No development shall take place until full details of both hard and soft landscape works including external lighting have been submitted to and approved in writing by the local planning authority and these works shall be carried out as approved. These details shall include the number, sizes and species of the proposed planting; the proposed finished levels or contours; means of enclosure; car parking layouts; other vehicle and pedestrian access and circulation areas; hard surfacing materials; minor artefacts and structures (eg furniture, play equipment, refuse or other storage units, signs, lighting etc.); proposed and existing functional services above and below ground (eg drainage power, communications, cables, pipelines etc. indicating lines, manholes, supports etc.); retained historic landscape features and proposals for restoration, where relevant.

4. All planting, seeding or turfing comprised in the approved details of landscaping shall be carried out in the first planting and seeding season following the first occupation of the buildings and no later than 12 months of that occupation or the completion of the development, whichever is the sooner, and any trees or plants which within a period of 5 years from the completion of the approved scheme die, are removed or become seriously damaged or diseased, shall be replaced in the next planting season with others of a similar size and species, unless the local planning authority gives written consent to any variation.

5. If piling is necessary, a written method statement shall be submitted to the Local Planning Authority. No piling shall take place until the method statement has been approved.

6. Unless otherwise agreed by the Local Planning Authority, development other than that required to be carried out as part of an approved scheme of remediation must not commence until the following have been complied with. If unexpected contamination is found after development has begun, development must be halted on that part of the site affected by the unexpected contamination to the extent specified by the Local Planning Authority in writing until thse conditions have been complied with in relation to that contamination.

A. Site Characterisation
An investigation and risk assessment, in addition to any assessment provided with the planning application, must be completed in accordance with a scheme to assess the nature and extent of any contamination on the site, whether or not it originates on the site. The contents of the scheme are subject to the approval in writing of the Local Planning Authority. The investigation and risk assessment must be undertaken by competent persons and a written report of the findings must be produced. The written report is subject to the approval in writing of the Local Planning Authority. The report of the findings must include:

(i) a survey of the extent, scale and nature of contamination;
(ii) an assessment of the potential risks to:
o human health,
o property (existing or proposed) including buildings, crops, livestock, pets, woodland and service lines and pipes,

……
Michael Green
Planning Applications Manager

o adjoining land,
o groundwaters and surface waters,
o ecological systems,
o archeological sites and ancient monuments;
(iii) an appraisal of remedial options, and proposal of the preferred option(s).

This must be conducted in accordance with DEFRA and the Environment Agency's 'Model Procedures for the Management of Land Contamination, CLR 11'.

B. Submission of Remediation Scheme
A detailed remediation scheme to bring the site to a condition suitable for the intended use by removing unacceptable risks to human health, buildings and other property and the natural and historical environment must be prepared, and is subject to the approval in writing of the Local Planning Authority. The scheme must include all works to be undertaken, proposed remediation objectives and remediation criteria, timetable of works and site management procedures. The scheme must ensure that the site will not qualify as contaminated land under Part 2A of the Environmental Protection Act 1990 in relation to the intended use of the land after remediation.

C. Implementation of Approved Remediation Scheme
The approved remediation scheme must be carried out in accordance with its terms prior to the commencement of development other than that required to carry out remediation, unless otherwise agreed in writing by the Local Planning Authority. The Local Planning Authority must be given two weeks written notification of commencement of the remediation scheme works.

Following completion of measures identified in the approved remediation scheme, a verification report (referred to in PPS23 as a validation report) that demonstrates the effectiveness of the remediation carried out must be produced, and is subject to the approval in writing of the Local Planning Authority.

D. Reporting of Unexpected Contamination
In the event that contamination is found at any time when carrying out the approved development that was not previously identified it must be reported in writing immediately to the Local Planning Authority. An investigation and risk assessment must be undertaken in accordance with the requirements of condition A, and where remediation is necessary a remediation scheme must be prepared in accordance with the requirements of condition B, which is subject to the approval in writing of the Local Planning Authority.

Following completion of measures identified in the approved remediation scheme a verification report must be prepared, which is subject to the approval in writing of the Local Planning Authority in accordance with condition C.

7. Before any other operations are commenced (excluding demolition/ site clearance), space shall be provided within the site curtilage for storage of plant and materials/ site accommodation/ loading and unloading of goods vehicles/ parking and manoeuvring of site operatives and visitors vehicles, laid out and constructed in accordance with detailed

designs to be submitted in advance to the Local Planning Authority for written approval and maintained throughout the contract period in accordance with the approved designs free from any impediment to its designated use.

8. The premises, the subject of the application, shall not be taken into use until space has been provided within the application site in accordance with the application drawings for the parking and manoeuvring of visitors/ staff/ service and delivery vehicles, laid out, surfaced and maintained throughout the life of the development free from any impediment to its designated use.

9. There shall be no gates or other barriers within 5m of the nearside highway boundary and any gates shall open inwards only and be locked open during the hours of operation.

10. The approved facility shall not operate outside the hours of 8.00am and 11pm on any given day.

11. No trees, shrubs or hedges within the site which are shown as being retained on the approved plans shall be felled, uprooted, wilfully damaged or destroyed, cut back in any way or removed without the prior written consent of the Local Planning Authority. Any trees, shrubs or hedges removed without such consent, or which die or become severely damaged or seriously diseased with five years from the completion of the development hereby permitted shall be replaced with trees, shrubs or hedge plants of similar size and species unless the Local Planning Authority gives written consent to any variation.

12. No development or other operations shall commence on site in connection with the development hereby approved (including any tree felling, tree pruning, demolition works, soil moving, temporary access construction and / or widening, or any operations involving the use of motorised vehicles or construction machinery) until a detailed Arboricultural Method Statement has been submitted to and approved in writing by the Local Planning Authority. No development or other operations shall take place except in complete accordance with the approved Method Statement. Such Method Statement shall include full details of the following:

a) Implementation, supervision and monitoring of the approved Tree Protection Scheme.

b) Implementation, supervision and monitoring of the approved Tree Work Specification.

c) Implementation, supervision and monitoring of all approved construction works within any area designated as being fenced off or otherwise protected in the approved Tree Protection Scheme.

Reasons

1. The time limit condition is imposed in order to comply with the requirements of sections 91, 92, 93 and 56 of the Town and Country Planning Act 1990 and section 51 of the Planning and Compulsory Purchase Act 2004.

……

Michael Green
Planning Applications Manager

2. In the interests of visual amenity, in accordance with Policy GD4 (and Policies BC5 and BC8 in respect of developments in conservation areas/listed buildings) of the High Peak Saved Local Plan Policies 2008.

3. In the interests of visual amenity, in accordance with Policy GD6 of the High Peak Saved Local Plan Policies 2008.

4. In the interests of visual amenity, in accordance with Policy GD6 of the High Peak Saved Local Plan Policies 2008.

5. In order to protect the amenities of the area, in accordance with Policy GD5 of the High Peak Saved Local Plan Policies 2008.

6. To ensure that risks from land contamination to the future users of the land and neighbouring land are minimised, together with those to controlled waters, property and ecological systems, and to ensure that the development can be carried out safely without unacceptable risks to workers, neighbours and other offsite receptors [in accordance with policy GD5 of the adopted Local Plan 2008

7. In the interests of highway safety, in accordance with Policy TR5 of the High Peak Saved Local Plan Policies 2008.

8. In the interests of highway safety, in accordance with Policy TR5 of the High Peak Saved Local Plan Policies 2008.

9. In the interests of highway safety, in accordance with Policy TR5 of the High Peak Saved Local Plan Policies 2008.

10.In the interests of residential amenity in accordance with policy GD5 of the Adopted High Peak Local Plan Saved Policies.

11.To ensure the continued well-being of the trees in the interests of the amenity and environmental quality of the locality, in accordance with Policy GD5 and OC10 of the High Peak Saved Local Plan Policies 2008.

12.To enable proper consideration to be given to the impact of the proposed development on existing trees, in accordance with Policy OC10 of the High Peak Saved Local Plan Policies 2008.

Summary of reasons for granting permission

The decision to grant planning permission has been taken because the Council considers that the application has put forward a proposal where the community benefits of the scheme will provide a positive benefit to the local community and where highways and amenity impacts are considered acceptable.

……
Michael Green
Planning Applications Manager

The decision to grant planning permission has also been taken having regard to all other relevant material planning considerations and to the following relevant policies and proposals in the Development Plan.

POLICIES RELEVANT TO THIS DECISION

OC6 - Agricultural Development

East Midlands Regional Plan March 2009

National Planning Policy

Notes to Applicant

Informative Note for Applicants/Agents for Developments within Coalfield Standing Advice Areas.

The proposed development lies within a coal mining area which may contain unrecorded mining related hazards. If any coal mining feature is encountered during development, this should be reported to The Coal Authority.

Any intrusive activities which disturb or enter any coal seams, coal mine workings or coal mine entries (shafts and adits) requires the prior written permission of The Coal Authority.

Property specific summary information on coal mining can be obtained from The Coal Authority's Property Search Service on 0845 762 6848 or at www.groundstability.com

The applicant is advised that notwithstanding the details shown on the approved plans, advertisement consent will be required for any signage to be displayed on the approved drawings.

Plans

The plans to which this Notice refers are listed below:

1028/A1/6.001
1028/A1/2.003a
1028/A1/3.001
1028/A1/3.002
1028/A1/6.002

……
Michael Green
Planning Applications Manager

Please Note: This decision notice does not convey any approval or consent which may be required under any enactment, bye-law, order or regulation other than Section 57 of the Town and Country Planning Act 1990.

Approval under the Building Regulations may also be required. Advice in this respect can be obtained by contacting the Councils Building Control Section on 0845 129 7777.

Any other statutory consent necessary must be obtained from the appropriate authority.

Where a vehicle is often driven across a grass verge or kerbed footway to and from premises adjoining a highway, the occupier of the premises may, be required to pay the cost of construction of a crossing, and/or may be required to comply with conditions, imposed by the Authority. You should contact the Highway Authority, Derbyshire, County Council at County Hall, Matlock, Derbyshire, tel. 01629 580000.

This consent is granted subject to conditions and it is the owner(s) and the person(s) responsible for the implementation of the development who will be fully responsible for their compliance throughout the development and beyond. **A fee is payable to us for the discharge of condition. Please refer to our web site : www.highpeak.gov.uk for details.** If there is a condition that requires work to be carried out or details to be approved prior to the commencement of the development this is called a "condition precedent". The following should be noted with regards to conditions precedent:
(a) If a condition precedent is not complied with, the whole of the development will be unauthorised and you may be liable to enforcement action.
(b) Where a condition precedent is breached and the development is unauthorised, the only way to rectify the development is the submission of a new application.

Other conditions on this permission must also be complied with. Failure to comply with any condition may render the owner(s) and the person(s) responsible for the implementation of the development liable to enforcement action.

The permission is granted in strict accordance with the approved plans. It should be noted however that:
(a) Any variation from the approved plans following commencement of the development irrespective of the degree of variation will constitute unauthorised development and may be liable to enforcement action.
(b) Variation to the approved plans will require the submission of a new planning application.
