147B Padfield Main Road, Padfield, Glossop,SK13 1ET

Design and Access Statement

Design

The majority of the works proposed are internal to the property, however the elements which affect the external view of the property are:

Rear facing Windows and Doors as detailed in PTC-147B-0

The existing stonework removed from the patio door opening will be re-used to block up the original rear door opening, hence maintaining a good match.

Access

Only the access to the rear of the property will be modified slightly when patio doors replace the rear door.
