Original.

Planning Application for an extension to the Dropped Curb at 4 Park Road, Buxton SK17 6SG.

As part of granted planning application HPK/2019/0176 to extend original garage to provide extended kitchen / utility space to the side feeding into a garden room at the rear & to build a new garage to the rear on the other side, the drive was to be widened at the front & extended around to the new garage.

This widened drive allows turning of vehicles on the property allowing access to & from the property without reversing out on to Park Road.

This planning application is to extend the existing dropped curb to the right of the house as viewed from the road to match the widened drive & allow safe access on to Park Road.

Bottom of right hand dropped curb moves two curb stones to the right extending the dropped curb length from 4.1M (yellow line) to 6.4M (red line).
