

PROPOSED GROUND FLOOR PLAN

PROPOSED FIRST FLOOR PLAN

LOCATION PLAN 1:1250

PROPOSED SITE PLAN SHOWING DRIVEWAY 1:200

The work proposed includes a 2 storey side extension with pike detail to the front elevation to mirror the existing house. There is to be a small single storey extension to the front elevation with a lean to roof to house the porch and garage. The rear of the house will receive a single storey extension.

The construction will have a pebble dashed render finish with dressed stone below to the front elevation. The dressed stone is to wrap around to the side elevation with pebble dashed render to the remaining. The dressed stone is to come from the existing side extension which is to be demolished.

The extensions will have blue slate roof coverings to match the existing.

All guttering and RWP's are to be in black PVC to match the existing.

The front garden is to be re-landscaped to include a block paved driveway with parking for 2 cars.
