www.epds-consultants.co.uk

1. Introduction

1.1.1. EPDS Consultants has been asked to consider the proposed development for its likely impact on schools in the local area.

1.2. Report Purpose & Scope

1.2.1. The purpose of this report is to act as a principle point of reference for future discussions with the relevant local authority to assist in the negotiation of potential education-specific Section 106 agreements pertaining to this site. This initial report includes an analysis of the development with regards to its likely impact on local primary and secondary school places.

1.3. Intended Audience

1.3.1. The intended audience is the client, Gladman Developments, and may be shared with other interested parties, such as the local authority(ies) and schools in the area local to the proposed development.

1.4. Research Sources

1.4.1. The contents of this initial report are based on publicly available information, including relevant data from central government and the local authority.

1.5. Further Research & Analysis

1.5.1. Further research may be conducted after this initial report, if required by the client, to include a deeper analysis of the local position regarding education provision. This activity may include negotiation with the relevant local authority and the possible submission of Freedom of Information requests if required. A second report would be published after the conclusion of this deeper research and analysis.

2. Proposed Development

2.1.1. The current proposed site at North Road, Glossop, lies adjacent to the SK13 7AX postcode area within the planning remit of High Peak Borough Council (HPBC), a unitary authority area with borough status.

2.1.2. The site lies within the primary and secondary catchment areas for schools for which the responsible local education authority is Derbyshire County Council (DCC).

2.2. Housing Mix

2.2.1. At the time of this Assessment Report the current total number of units for the whole site is up to 150 residential dwellings.

2.2.2. The planned start date of the development and first occupancy is yet to be confirmed. The build rate is also yet to be confirmed, although likely to be 30 units per year in line with similar developments of this type and size.

2.2.3. The current proposed mix for this scheme is as follows:

Bedrooms	Type	Market	Affordable	Intermediate	Social	Overall
2 bed	Semi	12	14	3	11	26
3 bed	Semi	27	19	4	15	46
3 bed	Detached	8	0	0	0	8
4 bed	Semi	21	6	1	5	27
4 bed	Detached	29	4	1	3	33
5 bed	Detached	8	2	0	2	10
Total		**105**	**45**	**9**	**36**	**150**

Table 1: Proposed housing mix for the site at North Road, Glossop.

2.3. Site Location

2.3.1. Glossop is a market town within the Borough of High Peak in Derbyshire. It lies about 15 miles east of Manchester, 24 miles west of Sheffield and 32 miles north of the county town of Matlock. For the purposes of this report the site postcode SK13 7AX has been used as it is the nearest postcode for dwellings along North Road in Glossop on the western edge of the site.

2.3.2. A location plan of the site is attached at Appendix A.

3. Existing Baseline Conditions

3.1.1. The Department for Education (DfE) defines the Glossop area as "Urban > 10k - less sparse"; it is common for such areas to have more than one primary school and one or more secondary schools in the vicinity.

3.2. Primary Schools Baseline

3.2.1. The local catchment schools are listed below in **Table 2**. Two miles is considered the maximum reasonable travel distance to school for children aged 8 and under, according the DfE. There are 15 DCC primary schools (including infant and junior schools) within the immediate 2-mile area (straight line distance to the site).

3.2.2. The current net capacity and numbers on roll (NOR) for schools within a 2-mile straight line distance from the site, using DCC school data for January 2012, are:

Primary School (child age range)	Postcode	Current Net Capacity (Jan 2012)	NOR / Total Children (Jan 2012)	Surplus Places (Jan 2012)	Distance from the Site (miles)
St Luke's CofE Primary School (5-11)	SK13 7BS	210	170	40	0.31
All Saints Catholic Primary School (5-11)	SK13 7RJ	98	125	0	0.47
Duke of Norfolk CofE Primary School (5-11)	SK13 7RD	315	325	0	0.54
St James' CofE Primary School (3-11)	SK13 8EF	315	290	25	0.72
Padfield Community Primary School (5-11)	SK13 1EQ	112	120	0	0.80
Dinting CofE Primary School (5-11)	SK13 6NX	119	105	14	0.81
Saint Mary's Catholic Primary (5-11)	SK13 8NE	210	150	60	0.82
St Andrew's CofE Junior School (7-11)	SK13 2DR	260	165	95	0.96
Hadfield Infant School (5-7)	SK13 1PN	210	155	55	1.02
Simmondley Primary School (5-11)	SK13 6NN	315	325	0	1.02

Table continued on next page

Table continued from previous page					
Primary School (child age range)	**Postcode**	**Current Net Capacity (Jan 2012)**	**NOR / Total Children (Jan 2012)**	**Surplus Places (Jan 2012)**	**Distance from the Site (miles)**
St Charles's Catholic Primary (5-11)	SK13 1PJ	210	220	0	1.32
Gamesley Community Primary School (5-11)	SK13 6HW	280	210	70	1.33
St Margaret's Catholic Primary (3-11)	SK13 6JH	210	65	145	1.56
Tintwistle CofE (Aided) Primary School (5-11)	SK13 1LY	119	90	29	1.58
Hollingworth Primary School (managed by Tameside MBC)	SK14 8LP	210	209	1	1.89
Totals		**3,193**		**534**	

Table 2: Local Primary School Capacity within a 2-mile straight line distance from the site.

[*Source:* Extracts from "primary_3oct12_derbyshire.pdf", DCC, attached at Appendix B.]

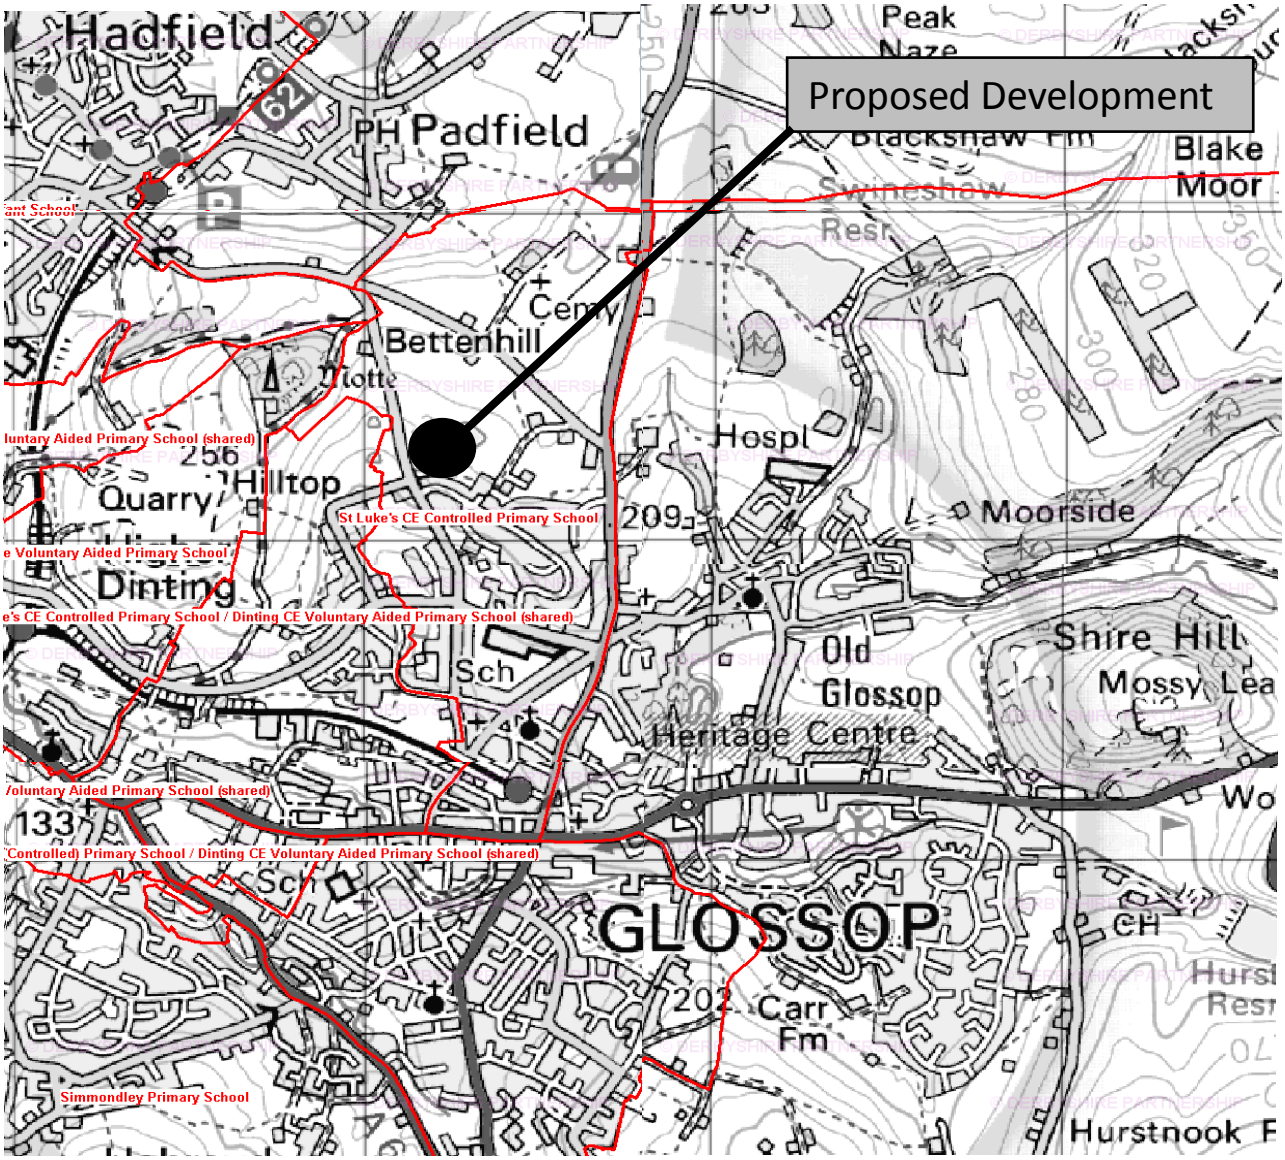

3.2.3. All schools have a Published Admissions Number (PAN) which indicates the number of pupils the school can take in each year group. If this number is then multiplied by the number of year groups at the school, this gives an indicative capacity of the numbers that the school can theoretically accept.

3.2.4. The above table uses the Audit Commission definition of Surplus Places, in line with best practice in this matter, which treats schools with a negative surplus as though they had a zero surplus. Since the number of pupils a school must admit in any year is directly related to its capacity, any school that chooses to admit numbers beyond that level must necessarily be deemed to be capable of accommodating those numbers.

3.2.5. On the above evidence it is clear that there are a significant number of surplus primary school places local to the proposed development and although some local primary schools appear to be at full capacity, there still remain a large number of surplus places at other local primary schools.

3.2.6. The current total surplus places as a percentage of total indicative local primary school capacity is **16.7%** (*calculation:* 534/3,193).

3.2.7. The following graphic indicates the extent of local primary school catchment areas. The proposed development lies within the catchment area of St Luke's CofE Primary School.

Graphic 3: Composite image of Glossop Primary School Catchment Areas, 2012.

[*Source:* DCC website, available in the public domain and reproduced solely for the illustrative purposes of this report.]

3.3. Derbyshire County Council primary school transport policy:

"Is my child entitled to free school transport to an infant, junior or primary school?

We provide assistance with transport for full time infant, junior and primary school pupils who do not live within walking distance of their normal area school. This distance is two miles for children under eight and three miles for children over eight. It is measured by the shortest available route.

There may be exceptions to this if we agree that the route to the normal area school is dangerous for a child (accompanied if necessary) to undertake on foot.

Bus passes or refunds are issued where appropriate and special contract transport is arranged if public transport is not available.

There may be exceptions to the transport rules if we agree that the route to the normal area school is dangerous for a child, accompanied if necessary, to undertake on foot. Spare places on a contract bus may be provided on a concessionary basis for children who are not normally entitled to free transport, however a fare will be charged.

Transport to faith schools

Parents choosing a voluntary aided faith school on religious grounds may be eligible to receive assistance with transport if the chosen school is the normal area voluntary school (in most cases the nearest voluntary school) and the school is outside the walking distance as explained above.

In addition, in the case of Catholic schools, only Roman Catholic baptised children are eligible to receive assistance with travel. In all such requests baptismal certificates are required as necessary evidence.

We have decided to introduce charges for faith school transport with effect from September 2011. The decision was taken to phase the charges, commencing with new transport users only and protecting existing recipients.

The charge for the 2011/12 academic year will be £287 per annum for a primary school pupil.

A wide range of payment methods will be available for parents including cash, cheque, online credit card and direct debit. Parents will have the facility to pay on an annual, termly or monthly basis. A maximum charge relating to two pupils per household will be observed.

Transport to other schools

Parents who send their child to a school which is not their normal area school will not normally receive assistance with transport. However, assistance with transport will be provided when a child attends a school, other than the normal area school, which is beyond the three-mile limit but is closer to the child's home than the normal area school."

[*Source:* Derbyshire County Council website 2012, primary school transport policy]

3.4. Secondary Schools Baseline

3.4.1. The position in the schools within three miles of the proposed development site is as follows:

Secondary School (child age range)	Postcode	Current Net Capacity (Jan 2012)	NOR / Total Children (Jan 2012)	Surplus Places (Jan 2012)	Distance from the Site (miles)
Glossopdale Community College (11-18)	SK13 7DR	2081	1355	726	0.23
St Philip Howard Catholic School (11-16)	SK13 8DR	485	501	0	0.69
Longdendale Community Language College (11-16) (managed by Tameside MBC)	SK14 8LW	920	889	31	2.06
Totals		**3,486**		**757**	

Table 4: Local Secondary School Capacity within a 3-mile straight line distance from the site.

[*Source:* Extracts from "secondary schools.pdf", DCC, attached at Appendix C.]

3.4.2. All schools have a Published Admissions Number (PAN) which indicates the number of pupils the school can take in each year group. If this number is then multiplied by the number of year groups at the school, this gives an indicative capacity of the numbers that the school can theoretically accept.

3.4.3. The above table uses the Audit Commission definition of Surplus Places, in line with best practice in this matter, which treats schools with a negative surplus as though they had a zero surplus. Since the number of pupils a school must admit in any year is directly related to its capacity, any school that chooses to admit numbers beyond that level must necessarily be deemed to be capable of accommodating those numbers.

3.4.4. On the above evidence it is clear that there are a significant number of surplus secondary school places local to the proposed development and although one secondary school appear to be at full capacity, there still remain a large number of surplus places at other local secondary schools.

3.4.5. The current total surplus places as a percentage of total indicative local secondary school capacity is **21.7%** (*calculation:* 757/3,486).

3.5. Derbyshire County Council secondary school transport policy

"Is my child entitled to free school transport to a secondary school?

We provide assistance with transport for secondary age school pupils to the end of statutory school age who do not live within walking distance of their normal area school. This distance is three miles and is measured by the shortest available route.

There may be exceptions to this if we agree that the route to the normal area school is dangerous for a child (accompanied if necessary) to undertake on foot.

Transport to the normal area school

We provide assistance with transport for secondary school pupils to the end of statutory school age who do not live within walking distance of their normal area school. This distance is three miles - and it is measured by the shortest available route.

Bus passes or refunds are issued where appropriate and special contract transport is arranged if public transport is not available.

There may be exceptions to the transport rules if we agree that the route to the normal area school is dangerous for a child, accompanied if necessary, to undertake on foot. Spare places on a contract bus may be provided on a concessionary basis for children who are not normally entitled to free transport, however a fare will be charged.

Transport to faith schools

Parents choosing a voluntary aided faith school on religious grounds may be eligible to receive assistance with transport if the chosen school is the normal area voluntary school (in most cases the nearest voluntary school) and the school is outside the walking distance as explained above.

In addition, in the case of Catholic schools, only Roman Catholic baptised children are eligible to receive assistance with travel. In all such requests baptismal certificates are required as necessary evidence.

We have decided to introduce charges for faith school transport with effect from September 2011. The decision was taken to phase in the charges, commencing with new transport users only and protecting existing recipients.

The charge for the 2011/12 academic year will be £317 per annum for a secondary school pupil.

A wide range of payment methods will be available for parents including cash, cheque, online credit card and direct debit. Parents will have the facility to pay on an annual, termly or monthly basis. A maximum charge relating to two pupils per household will be observed.

Transport to other schools

Parents who send their children to a school which is not their normal area school will not normally receive assistance with transport (children living outside the county attending Derbyshire schools should apply to their home council). However, assistance with transport will be provided when a child attends a school, other than the normal area school, which is beyond the three-mile limit but is closer to the child's home than the normal area school."

[*Source:* Derbyshire County Council website 2012, secondary school transport policy]

4. Predicted Impacts

4.1. Estimated New Primary, Secondary School & Sixth Form Places

4.1.1. Currently, housing developments in DCC are assumed to generate school pupils as illustrated below:

	Per 100 dwellings	Cost per pupil place	Cost per 1 dwelling	Cost per 10 dwellings	Cost per 100 dwellings
Primary school	20 places	£11,399.01	£2,279.80	£22,798	£227,980
Secondary school	15 places	£17,176.17	£2,576.42	£25,764.20	£257,642
Post-16 education	6 places	£18,627.90	£1,117.67	£11,167.70	£111,677

[*Source:* Based on the current DCC calculation methodology contained in "DCC Developer Contributions Protocol.pdf", attached at Appendix D]

4.1.2. Based on the above calculation methodology the proposed development of 150 dwellings would generate **30** primary places; **23** secondary places and **9** post-16 education places (rounded up to the nearest school place).

4.2. DfE Cost Multipliers

4.2.1. In their September 2012 document Developer Contributions Protocol, DCC state:

"The level of contribution required is determined using multipliers provided by the Department for Education. These multipliers are based on the Department for Education's analysis of national building costs per pupil adjusted to reflect regional variations in costs."

[*Source:* "DCC Developer Contributions Protocol.pdf", attached at Appendix D]

4.2.2. On 1st October 2012 the DfE published research based on its Baseline Designs and other recent work carried out by the Department on site area requirements. This research gives a new base cost of £1,113 per m2.

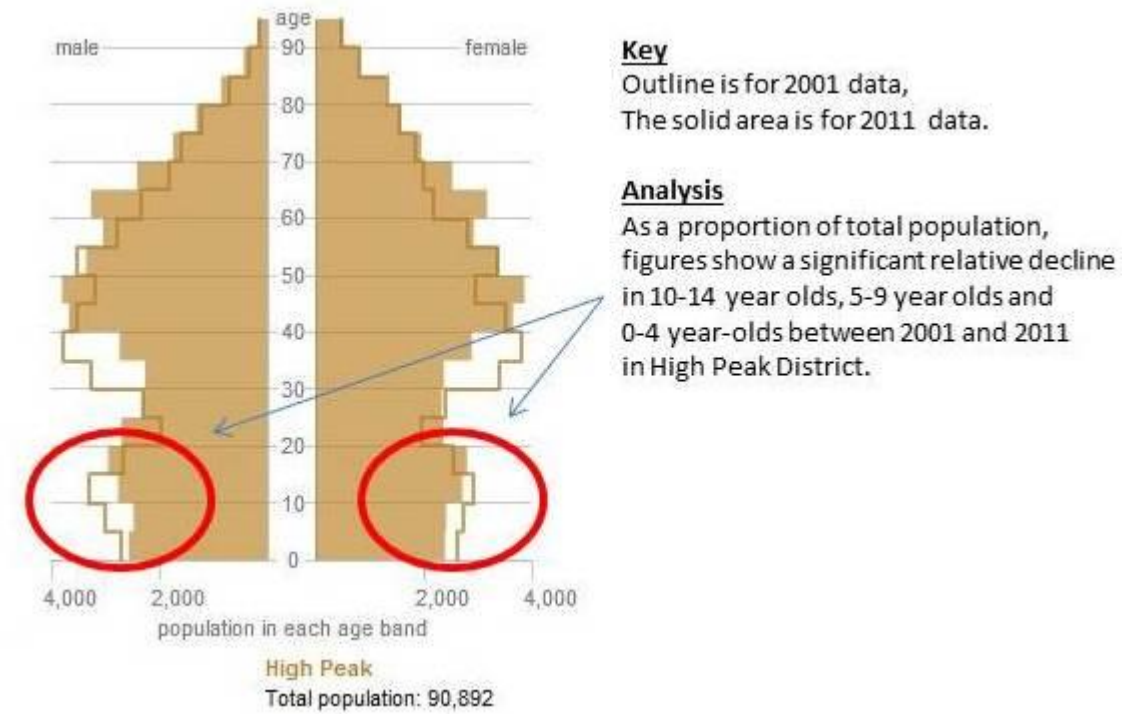

[*Source:* http://www.education.gov.uk/schools/adminandfinance/schoolscapital/buildingsanddesign/baseline/b00213563/baseline-designs-the-background-to-their-development]

4.2.3. DCC's current calculation of contribution level was published in September 2012 it is therefore still based on the DfE Cost Multiplier base of 2008/9 (which used a cost per m2 of £1,540).

4.2.4. The current DCC methodology is therefore relying on obsolete pricing when it uses figures of £11,399.01 per primary pupil place; £17,176.17 per secondary pupil place; and £18,627.90 per post-16 education place.

4.3. 2011 Census Results: Trends in the Numbers of School-Age Children

4.3.1. It is important to note that since 2001 there has been a significant downward trend in the numbers of young people in the local area. The following figures show a significant relative decline in total 10-14 year olds, 5-9 year olds and 0-4 year olds between 2001 and 2011 in High Peak District:

Graphic 5: Age band comparison in High Peak District between 2001 and 2011.
[*Source:* Office of National Statistics, December 2012 using 2011 Census data.]

4.3.2. In addition, DCC commented on the following 2011 Census results for the whole County:

"Children aged 0-14 represented 16.4% of Derbyshire's population, lower than both the East Midlands (17.3%) and England (17.7%)."

"….the number of school age children (5-14) has declined, a factor that will need to be considered when planning children's services across the county."

"Derbyshire has a smaller proportion of children of pre-school (0-4 years) and primary school (5-9 years) age compared to both the East Midlands and England."

[*Source:* DCC Census Briefing Note 1, attached at Appendix E.]

Summary & Conclusions

4.4. Primary School Impact

4.4.1. EPDS Consultants has considered the impact on the Glossop area within 2 miles given the inevitable knock-on impact on surrounding schools caused by the movement between catchment areas. Two miles is the maximum reasonable travel distance for children under 8 as defined by the DfE.

4.4.2. Based on the analysis in **Table 2** above it is very unlikely that the proposed development at Land off North Road, Glossop will generate a shortfall in local primary school places based on the expected increasing demand for which no mitigation in the form of S106 contributions is likely to be required.

4.4.3. In September 2012 there were due to be **534** places available locally, whereas the proposed development will require only **30** primary places.

4.4.4. At the time of this Report DCC have indicated that there will be 21 surplus places available at St Luke's CE Primary School and are subsequently seeking education contributions to mitigate the forecast shortfall in places at the school. EPDS has therefore requested that the surplus places at other primary schools within 2 miles are also taken into consideration, DCC are yet to respond to this further request.

4.5. Secondary School & Sixth Form Impact

4.5.1. EPDS Consultants has considered the impact on the Glossop area within 3 miles given the inevitable knock-on impact on surrounding schools caused by the movement between catchment areas. Three miles is the maximum reasonable travel distance for children under 16 as defined by the DfE.

4.5.2. Based on the analysis in **Table 4** above it is very unlikely that the proposed development at Land off North Road, Glossop will generate a shortfall in local secondary school or sixth form places based on the expected increasing demand for which no mitigation in the form of S106 contributions is likely to be required.

4.5.3. In September 2012 there were due to be **757** places available locally, whereas the proposed development will require only **23** secondary school places and **9** sixth form places.

4.5.4. At the time of this Report DCC have indicated that there will be sufficient surplus places available at Glossopdale Community College and DCC are therefore not seeking education contributions.

How to apply for a place at **Primary School**

A guide for parents 2013-14

DERBYSHIRE County Council
Improving life for local people

You must apply by midnight on 15 January 2013. We would prefer you to apply online.

Maintained Schools in Derbyshire – Nursery Schools

As well as the nursery schools listed, a number of schools in the primary schools list have nursery units.
In addition Shirebrook Stubbin Wood Special School has a nursery unit which also caters for mainstream children.
For further details please contact the Area Education Office.
The number of places indicated in nursery schools and units refers to full-time equivalent places.

Primary Schools notes

1. All schools are co-educational (boys and girls) and unless otherwise indicated are community schools.
2. All Catholic schools are voluntary aided schools.
3. Whilst the age of admission to infant schools is given as 5 years, the actual date of admission is normally in the September following their fourth birthday.
4. The approximate number of pupils refers to numbers as at January 2012.
5. Published admission number refers to the 2013/14 year.

*Where two admission limits are shown against a school, the school admits pupils in two different year groups.

Key

Catholic	Catholic (Voluntary Aided)
CE	Church of England
Meth	Methodist
Controlled	Voluntary Controlled
Aided	Voluntary Aided
Foundation	Foundation (formerly grant maintained)
ERS	Enhanced Resource Schools
Academy	Academy

Please note

1. The number of applications received for 2012/13 is shown for each school. This information is provided as a guide only for 2013/14 admissions. Some school allocation data by criteria is shown on page 53. This information is provided as a guide only for 2013/14 admissions.

2. In respect of community and voluntary controlled schools Derbyshire County Council is the admissions authority and a summary of oversubscription criteria can be found on pages 11 to 13.

3. In respect of academy, voluntary aided and foundation schools the governing body is the admissions authority and a brief summary of oversubscription criteria is given on pages 54 to 69. Parents are advised to obtain full details of the admissions policy direct from the relevant school. Whether specifically mentioned or not, individual pupils who have a Statement of Special Educational Needs which names the school will be admitted.

D. DCC Developer Contributions Protocol (Extracts)

DERBYSHIRE COUNTY COUNCIL
DEVELOPER CONTRIBUTIONS' PROTOCOL

September 2012

Introduction

1 The Derbyshire County Council Developer Contributions' Protocol is a tool for use by developers and borough and district councils and the Peak District National Park Authority (local planning authorities). It sets out the County Council's expectations for contributions towards infrastructure and services required to support growth and development in Derbyshire.

2 A fundamental aspect of achieving sustainable development as promoted in the Council Plan, Derbyshire's Sustainable Community Strategy and the Derbyshire Infrastructure Plan, is that any necessary infrastructure and services should be in place at the right time to serve the development that requires them and that new development should also minimise its impact on the environment and mitigate any losses or damage to an existing community or environmental resource.

3 It may be possible to make residential development proposals acceptable through the use of planning conditions. Where this is not the case, it may be necessary to use developer contributions (planning obligations) to mitigate the impacts of a development proposal. For the purposes of this protocol, 'developer contributions' therefore means planning conditions; financial contributions (monies secured through Section 106); maintenance payments; and the direct provision of services, infrastructure, land and buildings.

4 As local planning authorities, it is the borough and district councils and the Peak District National Park Authority that deal with nearly all planning applications. However, for new residential development, it is the County Council and other providers that are responsible for the provision of much of the infrastructure and services which can face extra demand resulting from such development.

5 This Protocol focuses on priorities that could potentially require funding, either wholly or in part, by developer contributions. Strategic services and infrastructure that are covered by this Protocol include (this list is not exhaustive):

- Local Authority collected waste;
- Broadband;
- Countryside including Public Rights of Way and Greenways;
- Libraries;
- Education;
- Adult care and Wellbeing;

structures; or land acquisition or landowner compensation. Contribution requirements will therefore be assessed on a case by case basis.

Libraries

- *On-site provision via Section 106 and Conditions*
- *Financial via Section 106 Agreements*
- *(CIL for specific named interventions)*

86 The County Council has a statutory responsibility to provide a comprehensive and efficient library service. Where new residential development impacts on libraries identified as Strategic Priority Projects in the Derbyshire Infrastructure Plan; and/or where new residential development creates additional pressure on service provision, developer contributions may be sought for capital improvements to existing facilities and/or on-going revenue costs for additional service provision.

87 Contributions will be sought from all new residential development where development will result in a need for capital improvements. The benchmark space standard is 30 square metres per 1000 population. Construction and fit out costs will vary, but an average figure is £3,514 per square metre. This equates to a cost of £105,420 for the standard 30 square metres per 1000 population, or £105 per person. Assuming an average household size of 2.34, this equates to £245.70 per dwelling for capital investment in library facilities.

88 Where new development would result in additional active library users and library visits, the County Council will seek a financial contribution towards the on-going revenue cost of increased service provision for a 10-year period. Figures from the Chartered Institute of Public Finance and Accountancy (2011) indicate that 21% of the population actively uses public libraries and Derbyshire County Council figures show that each active borrower makes an average of 20 library visits per year. The cost of providing a library service in Derbyshire is £3.67 per visit. Assuming an average household size of 2.34 persons and assuming that 21% of new residents actively use public libraries and make an average of 20 visits per year, this equates to approximately £36 per dwelling per annum or £360 per dwelling for 10 years for on-going revenue investment in library services.

Education

- *On-site provision via Section 106 and Conditions*
- *Financial via Section 106 Agreements*
- *(CIL for specific named interventions)*

89 The County Council is obliged to provide a place for each child in the normal area school. The County Council identifies the net capacity of schools based on the current Number on Roll.

90 The requirement for a financial contribution is based on the net capacity and current number on roll, as well as projected pupil numbers for the next five years. The County Council uses financial contributions to provide additional primary, secondary and post-16 capacity (places) to address basic need arising directly from new development. The capacity and projected pupil numbers can be found in the Derbyshire Infrastructure Plan.

91 Statistical information given in the Derbyshire Infrastructure Plan regarding numbers on roll and pupil projections for a school is accurate at the moment of its publication, but many and varying factors impact on numbers and the situation can change very quickly following publication. Specifically, pupil projection information is a snapshot in time which is indicative of trends which assist in planning pupil place requirements. At any time during the year following publication of this data, families may move into or out of a school's normal area, the Head Teacher or other staff may change, or OfSTED may publish a report which impacts people's perception of a school. These factors, amongst others, can impact on pupil numbers and this, in turn, can change projection trends. The data published here does NOT include the impact of any planned new housing developments within the normal area of the school, and no cognisance is taken of the approved planning permissions which may be extant at the time of publication. The admissions process for all schools leads to a review of numbers at the beginning of each new term and the number on roll can vary and therefore the projection data. Therefore, it is imperative that interpretation of this data is the subject of discussion with County Council officers (in line with the Developer Contributions Protocol).

92 Where a development relates to a normal area with sufficient current capacity, no financial contribution will be required. Where the development relates to a normal area where there is sufficient current capacity but where the proposed development would result in insufficient capacity, a financial contribution will be required. Where the development relates to a normal area where there is insufficient current capacity, a financial contribution will be required.

93 Proposed development schemes of more than 1,000 dwellings will normally require provision of a new 1-form entry primary school. The requirement for developer contributions will be for the land and funding to deliver a new primary school. Currently, a new 1-form entry primary school costs approximately £6 - £8 million to build.

94 Proposed development schemes of more than 6,000 dwellings will normally require provision of a new secondary school. The requirement for developer contributions will be for the land and funding to deliver a new secondary school. Currently, a new secondary school of 900 pupils costs approximately £20 million to build.

95 The level of contribution required is determined using multipliers provided by the Department for Education. These multipliers are based on the Department for Education's analysis of national building costs per pupil adjusted to reflect regional variations in costs.

96 Contributions are used to deliver capital investment in sites and construction costs for new schools; additional classrooms; and other related facilities (including sports pitches and nature areas). Proposals to redevelop an existing school site will normally trigger a requirement for provision of a replacement school. The thresholds and level of contribution required is shown below.

	Per 100 dwellings	Cost per pupil place	Cost per 1 dwelling	Cost per 10 dwellings	Cost per 100 dwellings
Primary school	20 places	£11,399.01	£2,279.80	£22,798	£227,980
Secondary school	15 places	£17,176.17	£2,576.42	£25,764.20	£257,642
Post-16 education	6 places	£18,627.90	£1,117.67	£11,167.70	£111,677

Adult Care and Wellbeing

- *On-site provision via Section 106 and Conditions*
- *Financial contribution via Section 106 Agreements*

97 The County Council's population is getting older, and new residential development should be appropriately designed with sufficient accessible amenity space, changing facilities and toilets to ensure that older people and disabled people can retain their independence and live at home for longer if they wish to do so. Retrofitting adaptations is a costly and unsatisfactory alternative to adequate design measures installed from the outset.

98 Where necessary, conditions following the example wording below should be attached to planning permissions to ensure good quality and appropriate design.

"The occupation of the development authorised by this permission shall not begin until the accessible amenity space, changing facilities, toilets and adaptation works shown on the drawings hereby approved and described in xxdocumentxx dated xxdaymonthyearxx have been completed in accordance with those drawings and certified in writing as complete by or on behalf of the local planning authority."

99 New major residential development is likely to impact on County Council service delivery as a proportion of new residents may be older people or disabled people who require Adult Care services. Proposals for major residential development will be assessed on a site by site basis to determine the likely impact on existing Adult Care facilities and/or the need to provide additional new facilities. Where a development will result in additional need for Adult Care services,

E. DCC Census Briefing Note 1

2011 Census: **Briefing Note 1**

Research & *i*nformation, Chief Executive's

The 2011 Census of Population took place on Sunday 27 March 2011 in England and Wales. It was carried out by the Office for National Statistics (ONS) as part of its programme for understanding life in the UK. Around 25 million households were issued with a questionnaire designed to collect detailed information about where people live, what they do for a living, what sort of homes and families they have, their general health, their educational attainment and how these factors have changed over time. A 96% response rate was achieved in Derbyshire, this compares to a 94% response rate nationally. This briefing note contains analysis of the first release of 2011 Census data which includes population data for the administrative county of Derbyshire by age and household data by district. A summary of population change since 2001 is also included. Please note that all figures are rounded to the nearest 100. The key findings for Derbyshire are as follows:

- The Derbyshire population stood at 769,700 on Census day; an increase of 35,100 since the last Census in 2001. Overall the rate of population growth in Derbyshire was 4.8% which is lower than that of the East Midlands (8.7%) and England (7.9%).

- Children aged 0-14 represented 16.4% of Derbyshire's population, lower than both the East Midlands (17.3%) and England (17.7%).

- The proportion of pre-school age population has increased slightly, whilst the number of school age children (5-14) has declined, a factor that will need to be considered when planning children's services across the county.

- The number of people aged 65+ in the county has grown, representing 18.6% of Derbyshire's population. This is a higher percentage than for the East Midlands (17.1%) and England (16.3%). The number of people aged 85+ has also increased and represents 2.4% of the population in Derbyshire, compared to 2.2% nationally and regionally. The increase in the number of older people in the county could have significant implications for older people's services in Derbyshire.

- The largest growth in population among Derbyshire's eight districts has been in South Derbyshire with an increase of 15.9% since 2001. In contrast, the population of High Peak increased by just 1.7%. This may place an increased demand on the supply of housing and local services in the south of the county.

- 2011 Census figures show there were 332,600 households in the administrative county of Derbyshire. This represents an increase of 7.7% since 2001 and is in line with the increase for England (7.9%) but below that of the East Midlands (9.4%).

Population within Derbyshire by age band (2011)

The age structure of Derbyshire's population is older than both the East Midlands and England, there are lower numbers of younger people within the county when compared to the national age profile. South Derbyshire has the highest younger population and Derbyshire Dales and North East Derbyshire have lower numbers of pre-school children. The table below shows the distribution of various age groups in the population.

Age	Derbyshire		East Midlands		England	
	Number	%	Number	%	Number	%
0-4	41,500	5.4	270,200	6.0	3,318,500	6.3
5-9	40,400	5.2	247,600	5.5	2,972,600	5.6
10-14	45,000	5.8	264,500	5.8	3,080,900	5.8
15-19	47,200	6.1	295,900	6.5	3,340,300	6.3
20-24	41,000	5.3	307,700	6.8	3,595,300	6.8
25-29	41,000	5.3	278,600	6.1	3,650,900	6.9
30-34	41,200	5.4	267,800	5.9	3,509,200	6.6
35-39	49,300	6.4	291,900	6.4	3,549,100	6.7
40-44	60,500	7.9	335,900	7.4	3,885,900	7.3
45-49	61,500	8.0	340,200	7.5	3,879,800	7.3
50-54	54,000	7.0	298,700	6.6	3,400,100	6.4
55-59	49,400	6.4	269,900	6.0	2,997,000	5.7
60-64	54,800	7.1	291,400	6.4	3,172,300	6.0
65-69	44,300	5.8	232,200	5.1	2,508,200	4.7
70-74	33,500	4.4	182,600	4.0	2,044,100	3.9
75-79	26,800	3.5	146,500	3.2	1,669,300	3.1
80-84	19,700	2.6	110,000	2.4	1,258,700	2.4
85-89	12,300	1.6	67,900	1.5	776,500	1.5
90+	6,400	0.8	33,800	0.7	403,700	0.8
Total	**769,700**	**100**	**4,533,200**	**100**	**53,012,500**	**100**

- Derbyshire has a smaller proportion of children of pre-school (0-4 years) and primary school (5-9 years) age compared to both the East Midlands and England.
- 40-49 year olds make up a greater percentage of the population within Derbyshire as they do for the East Midlands and England.
- 18.6% of Derbyshire's population are aged 65+, higher than both the East Midlands (17.1%) and England (16.3%).
- There are just over twice as many females (12,500) aged 85+ than there are males (6,100), this is slightly different to 2001 when there were nearly three times as many females to males.
- The age structure of the population differs greatly across the county. Derbyshire Dales has the greatest proportion of those aged 50+ and South Derbyshire has the youngest population.
