HERITAGE STATEMENT
OLD SUN INN @ 33 HIGH STREET, BUXTON, SK17 6HA

The Old Sun Inn was built mid C18, altered and extended C19 and C20. The new signage has been designed to be sympathetic to the buildings fabric and its surroundings. The continual use of traditional design and construction gives the building a feel of symmetry. All the signage has been located on the natural areas as not to conflict with the buildings aesthetics or detract from the architecture. It will be manufactured from aluminium and painted, displayed in traditional methods.

The signage will indicate both the buildings function and also the access points to both foot and vehicular traffic at distance also creating a better flow of traffic for users of the outlet.

The signage has been designed using traditional materials and processes. The use of colours and letter styles has been chosen to be traditional but not overpowering against the buildings aesthetics. Every care has been taken to ensure that this design will compliment the building and be in keeping with the surrounding area. The signage pays respect to the heritage of the building.
