Comments: Was somewhat concerned when I received the application notification this morning as there is already an issue with parking on our road and the number of cars travelling past the houses poses a risk to children and animals, but upon viewing the application I can see that there are two parking spaces for every house. As this is already a developed parcel of land and would therefore have very little negative implications to already existing habitats I feel that this would be a low-impact development. I would therefore support this application and look forward to shouting angrily at the builders who will undoubtedly cause a great deal of disruption during construction.
