Dear Sirs

**DOC/2015/0011 - Proposed Discharge of Condition 5, Water Discharge Scheme
Relating to HPK/2014/0564 at Evans Halshaw Brookfield, Dinting Glossop**

Further to your request to discharge condition 5 on approved planning application HPK/2014/0564. The Authority has requested on numerous occasions additional information including a proposed plan and details to satisfy this condition.

Therefore as there has been no further correspondence on the matter from yourselves or receipt of this information in an acceptable timeframe I refuse the application to discharge the condition. If you wish to discharge condition 5 in the future prior to any works commencing then you will need to re-apply with the proposed information. I must also remind you that no application has been received either to discharge condition 2 on the approved application and you will need to apply with the relevant detail for a construction compound to discharge this condition.

Yours sincerely

Karen Taylor
Planning Officer
