Dear Sir / Madam

Objection to planning application, No. HPK/2015/0351. Outline Planning for 6 detached houses on land at Manchester Road, Tunstead Milton behind the Combs Reservoir Dam Wall.

I object to the planning for the following reasons:

There can be no justification for this development to go ahead with the present situation regarding house building in the area already putting a strain on the existing infrastructure. If these so called small developments are allowed to creating what is in essence ribbon development then where does it end. Does it keep going until every small field and large garden is built on, and communities in the High Peak merge into one large urban sprawl?

In under a mile away 80 new houses (Barratt Homes) are already currently being building as well.

Many thanks

Arthur Vickers
