During the construction process of carrying out loft conversions and roof repairs to existing properties there is slight risk that cracks may appear in existing ceilings. Additionally "nail pops" (which is the detachment of plaster from the existing nail heads) can also be experienced. Adamson Construction Ltd will take all reasonable precautions to prevent such occurrences and will carry out reasonable repairs to such cracks. However, the company cannot be held responsible for defects or damage to existing ceilings which are out of level or are already cracked.

Adamson Construction Ltd suggest that the Customer arranges for the removal of all carpets adjacent to the proposed works for the duration of the contract.

Whilst we will undertake reasonable protection measures we cannot be held responsible for any renewal or cleaning of carpets left in-situ.

The company does not undertake external paving, landscaping or steps.

The company will not be liable for any decoration works to new or existing ceilings, walls & woodwork.

This drawing is the copyright of Adamson Construction Limited and any reproduction in whole or part is strictly forbidden.

Adamson Construction reserve the right to modify and make necessary alterations dependant on site conditions.
