

Proposed Air Conditioning Units for 47b Market Street, New Mills, SK22 4AA

The Units proposed are wall mounted inverter conditioning units. The Dimensions of the outside unit are 540 mm-286mm. If necessary they can be mounted at ground level.

Noise abatement techniques:

- Unit placed to the side of the property. Over 50 M from nearest dwelling
- Unit features super quiet operation
- Unit will be switched off during none trading hours
- Average noise between 25 db and 54.5db max
- Will only run intermittently during opening hours depending on the

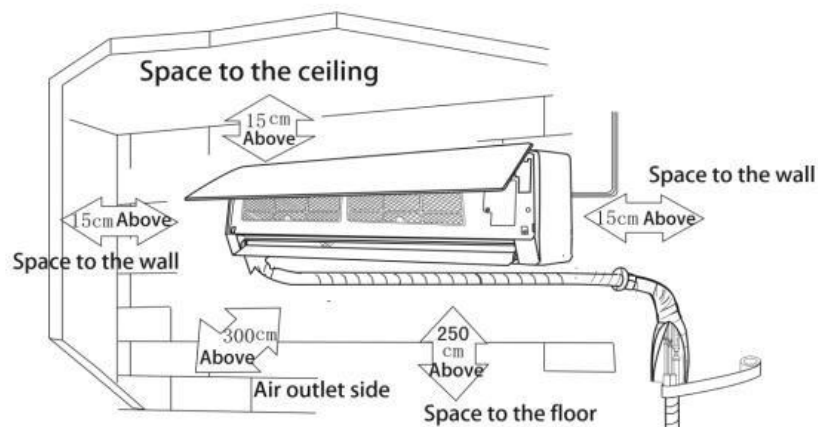

temperature

- Located at low level viewed from the side and cannot be seen from Market

street at all due to the permanently locked service access gate
