Dear Sir Madam

Ref. Application Number: HPK/2016/0507, Lloyds Pharmacy Signs.

We would like to advise that we are concerned about the impact this application may have on both the visual aspects of the proposal and for us the more important issue would be access and parking.

We feel the Lloyds Pharmacy is in an ideal position to pick up business from our surgery and surrounding surgeries. It is not necessarily intended to pick up passing business. The parking arrangements for the Pharmacy are minimal (max two spaces, though even this is under dispute at present) and often we already have problems with customers double parking in the car park in front of the surgery.

This is where a number of the GPs park, who need in and out access throughout the day for home visiting.

The rest of the car park is for patients of the surgery or other GP and staff parking.

Extra traffic attracted to the site may also cause issues with pavement safety and traffic blockages on Temple Road around our entry / exit.

We believe extra signage should be minimal and should be there to allow patients to be able to see the Pharmacy entrance more easily, rather than to attract more passing traffic. That is the sign at 90 degrees to the shop front (though preferably not above their porch roof area) and the vinyl signs would be acceptable.

I hope this is clear but if you have any further questions please ask.

Best Regards
Yours Sincerely /

David Doig
Practice Manager
