...

This all looks fine now. The only thing that I can't see on the drawings is a section showing a glazing bar on the house windows (one is shown for the barn). We could either condition the submission of a glazing bar detail for the house windows or state that all glazing bars are to be in accordance with that shown on the barn conversion drawing. Don't need to condition the retention of the 2 historic windows as the plans confirm this. Don't need to condition materials.

Condition construction detail for the porch and facing materials

Thanks
