PLANNING APPLICATION NO HNT/2017/0022

APPLICANTS NAME MISS ROSEMARY O'GRADY

Dear Sirs,

With regard to the above application, on viewing the application and its dimensions, I have to log my concern with regard to this extension. It obviously means demolishing the existing small one, which is side on to my extension of 30+ years, my concern is that mine is a double story and when built all relevant dampproofing was put in place, my worries are that my extension will be now boxed and I just want total assurance that all measures will be put in place to ensure that my extension will not be affected in any way. I would like it in writing that my property will not be affected and all building work made good on both properties. I apologise for the late reply, but have recently had a bad chest infection.

and stayed at my daughters. I returned to find this application letter. I struggled to get on line, eventually seeing the plans. As I have stated I am concerned in the demolition of the existing extension and would like reassurance that my property would not be affected. I might add that the lady in question has not been in touch personally with myself, so I feel I have to log my concern in an official capacity.

Yours faithfully,

P. McConnell
