Application no: HPK/2017/0553

Determined on: 6th March 2018

Town and Country Planning Act 1990
Town and Country Planning (Development Management Procedure) (England) Order 2015

FULL PERMISSION FOR DEVELOPMENT

This permission does not carry any approval or consent which may be required under any enactment, bylaw, order or regulation (e.g. in relation to Building Regulations or the Diversion of Footpaths etc) other than Section 57 of the Town and Country Planning Act, 1990 (as amended).

Location of Development:

Avening, Adderley Place, Dinting, Glossop, Derbyshire SK13 6PA

Description of Development:

Erection of one detached dwelling.

In pursuance of their power under the above mentioned Act, High Peak Borough Council Planning Authority, **HEREBY GRANTS PLANNING PERMISSION** for the development described above subject to the following condition(s):

1. The development hereby permitted shall be begun before the expiration of three years from the date of this permission.

Reason:- To comply with Section 51 of the Planning and Compulsory Purchase Act 2004.

2. The development hereby permitted shall be carried out in accordance with the following amended plans: Dwg No 017-154-07 Rev B received on 05 March 2018 and revised Location Plan GTP1A received on 13 February 2018.

Reason:- For the avoidance of doubt and in the interests of proper planning, in accordance with the National Planning Policy Framework.

3. Notwithstanding the details shown on the approved plans, no consent is hereby given

High Peak Borough Council

working for our community

for the use of timber cladding. No development shall commence until samples of the materials to be used in the construction of external walls and roofs of the building and hard surfaces have been submitted to and approved in writing by the Local Planning Authority. Development shall be carried out in complete accordance with the approved materials.

Reason:- To ensure that the external appearance of the development is appropriate to its surroundings in accordance with Policy EQ6 of the High Peak Local Plan 2016 and the National Planning Policy Framework.

4. No development shall commence on site until a scheme of hard and soft landscaping has been submitted to and approved in writing by the Local Planning Authority, the details of which shall include:

- (a) indications of all existing trees and hedgerows on the land;
- (b) details of any to be retained, together with measures for their protection in the course of development;
- (c) all species, planting sizes and planting densities, spread of all trees and hedgerows within or overhanging the site, in relation to the proposed buildings, roads, and other works;
- (d) finished levels and contours;
- (e) means of enclosure;
- (f) car park layouts;
- (g) other vehicle and pedestrian access and circulation areas;
- (h) hard surfacing materials;
- (i) minor artefacts and structures (e.g. furniture, play equipment, refuse and other storage units, signs, lighting etc);
- (j) proposed and existing functional services above and below ground (e.g. drainage, power, communications, cables, pipelines etc indicating lines, manholes, supports etc);
- (k) retained historic landscape features and proposed restoration, where relevant.

Reason:- To ensure a satisfactory landscaped setting for the development and the protection of existing important landscape features, in the interests of visual amenity, in accordance with Policies S1 and EQ6 of the High Peak Local Plan 2016 and the National Planning Policy Framework.

5. All soft landscaping comprised in the approved details of landscaping shall be carried out in the first planting and seeding season following the first occupation of the building(s) or the completion of the development whichever is the sooner; All shrubs, trees and hedge planting shall be maintained free from weeds and shall be protected from damage by vermin and stock. Any trees or plants which, within a period of five years, die, are removed, or become seriously damaged or diseased shall be replaced in the next planting season with others of a similar size and species, unless otherwise agreed in writing by the Local Planning Authority. All hard landscaping shall also be carried out in accordance with the approved details prior to the occupation of any part of the development or in accordance with a programme to be agreed in writing with the Local Planning Authority.

High Peak Borough Council

working for our community

Reason:- To ensure a satisfactory landscaped setting for the development and the protection of existing important landscape features, in the interests of visual amenity, in accordance with Policies S1 and EQ6 of the High Peak Local Plan 2016 and the National Planning Policy Framework.

6. No development shall take place until there has been submitted to and approved in writing by the Local Planning Authority a plan indicating the positions, design, materials and type of boundary treatment to be erected. The approved boundary treatment shall be completed before the building is occupied or in accordance with a timetable agreed in writing with the Local Planning Authority.

Reason:- In the interest of visual amenity, in the interests of visual amenity, in accordance with Policies S1 and EQ6 of the High Peak Local Plan 2016 and the National Planning Policy Framework.

7. No operations shall commence on site in connection with the development hereby approved (including demolition works, tree works, fires, soil moving, temporary access construction and / or widening or any operations involving the use of motorised vehicles or construction machinery) until a detailed Arboricultural Method Statement (AMS) in accordance with BS5837:2012 Trees in relation to design, demolition and construction - Recommendations has been submitted to and approved in writing by the Local Planning Authority.

The AMS shall include full details of the following:

- a) Timing and phasing of Arboricultural works in relation to the approved development.
- b) Detailed tree felling and pruning specification in accordance with BS3998:2010 Recommendations for Tree Works.
- c) Details of a tree protection scheme in accordance with BS5837:2012: which provides for the retention and protection of trees, shrubs and hedges growing on or adjacent to the site which are shown to be retained on the approved plan and trees which are the subject of any Tree Preservation Order.
- d) Details of any construction works required within the root protection area as defined by BS5837:2012 or otherwise protected in the approved Tree Protection Scheme
- e) Details of the location of any underground services and methods of installation which make provision for protection and the long-term retention of the trees. Notwithstanding the provisions of The Town and Country Planning (General Permitted Development) Order, 1995 (as amended by The Town and Country Planning (General Permitted Development) Order 2015), no services shall be dug or laid into the ground other than in accordance with the approved details.
- f) Details of any changes in ground level, including existing and proposed spot levels required within the root protection area as defined by BS5837:2012 or otherwise protected in the approved Tree Protection Scheme.
- g) Details of any vehicular drives, parking areas and other hard surfacing within the root protection area (as defined by BS5837:2012). The design and construction must in

High Peak Borough Council

working for our community

accordance with the recommendations of BS5837:2012. Include details of existing ground levels, proposed levels and depth of excavation.

h) Details of the arrangements for the implementation, supervision and monitoring of works required to comply with the arboricultural method statement.

Reason:- To protect the health and amenity of the trees in accordance with Policies EQ2 and EQ9 of the High Peak Local Plan 2016 and paragraph 118 of the National Planning Policy Framework.

8. a) All tree felling and pruning works shall be carried out in full accordance with the approved specification and the requirements of British Standard 3998: 2010 - Recommendations for Tree Works.

b) No excavations for services, storage of materials or machinery, parking of vehicles, deposit or excavation of soil or rubble, or disposal of liquids shall take place within any area designated as being fenced off or otherwise protected in the approved protection scheme.

c) No fires shall be lit within 6m of the furthest extent of the canopy of any tree or tree group to be retained as part of the approved scheme.

d) Protective fencing shall be retained intact for the full duration of the development hereby approved and shall not be removed or repositioned without the prior written approval of the Local Planning Authority.

e) No development or other operations shall take place except in complete accordance with the approved protection scheme and Arboricultural Method Statement.

Reason:- To protect the health and amenity of the trees in accordance with Policies EQ2 and EQ9 of the High Peak Local Plan 2016 and paragraph 118 of the National Planning Policy Framework.

9. Prior to the commencement of development, details of ecological enhancement measures that shall include details of bird and bat boxes (positions/specification/numbers) shall be submitted to and approved in writing by the Local Planning Authority. Such approved measures shall be implemented in full prior to first occupation of the development and maintained thereafter.

Reason - To safeguard and enhance the ecology of the area in accordance with Policy EQ5 of the High Peak Local Plan.

10. No development shall take place (including ground works and vegetation clearance) until a construction environmental management plan (CEMP: Biodiversity) has been submitted to and approved in writing by the local planning authority. The CEMP (Biodiversity) should include measures to protect badgers during construction works and also protect the

High Peak Borough Council

working for our community

nearby Gamesley Sidings Local Wildlife Site during construction and in the long term. The approved CEMP shall be adhered to and implemented throughout the construction period strictly in accordance with the approved details, unless otherwise agreed in writing by the local planning authority.

Reason:- In the interests of biodiversity and to minimise unnecessary light spillage above and outside the development site, in accordance with Policy EQ5 of the High Peak Local Plan.

11. No development shall commence until a lighting strategy detailing all external lighting equipment has been submitted to and approved in writing by the Local Planning Authority. The scheme shall ensure that lightspill to the nearby woodland edge is avoided. The approved external lighting plan shall be implemented in accordance with the approved details and thereafter retained. No other external lighting equipment may then be used within the development other than as subsequently approved in writing by the Local Planning Authority.

Reason:- In the interests of biodiversity and to minimise unnecessary light spillage above and outside the development site, in accordance with Policy EQ5 of the High Peak Local Plan.

12. a) No development shall take place until a Written Scheme of Investigation for archaeological work has been submitted to and approved by the local planning authority in writing, and until any pre-start element of the approved scheme has been completed to the written satisfaction of the local planning authority. The scheme shall include an assessment of significance and research questions; and

1. The programme and methodology of site investigation and recording
2. The programme for post investigation assessment
3. Provision to be made for analysis of the site investigation and recording
4. Provision to be made for publication and dissemination of the analysis and records of the site investigation
5. Provision to be made for archive deposition of the analysis and records of the site investigation
6. Nomination of a competent person or persons/organization to undertake the works set out within the Written Scheme of Investigation.

b) No development shall take place other than in accordance with the archaeological Written Scheme of Investigation approved under part (a) of this condition.

c) The development shall not be occupied until the site investigation and post investigation assessment has been completed in accordance with the programme set out in the archaeological Written Scheme of Investigation approved under part (a) of this condition and

High Peak Borough Council

working for our community

the provision to be made for analysis, publication and dissemination of results and archive deposition has been secured.

Reason:- To enable the site's archaeological remains to be properly investigated and recorded, in accordance with Policy EQ7 of the High Peak Local Plan 2016.

13. Unless otherwise agreed in writing by the Local Planning Authority, development other than that required to be carried out as part of an approved scheme of remediation must not commence until parts 1 to 2 of this condition have been complied with. The development shall not be occupied until Part 3 has been complied with.

Site Characterisation

An investigation and risk assessment, in addition to any assessment provided with the planning application, must be completed in accordance with a scheme to assess the nature and extent of any contamination on the site, whether or not it originates on the site. The contents of the scheme shall be submitted to and approved in writing by the Local Planning Authority. The investigation and risk assessment must be undertaken by competent persons and a written report of the findings must be produced. The written report shall be submitted to and approved in writing by the Local Planning Authority. The report of the findings must include:

- (i) a survey of the extent, scale and nature of contamination;
- (ii) an assessment of the potential risks to:
 - human health,
 - property (existing or proposed) including buildings, crops, livestock, pets, woodland and service lines and pipes,
 - adjoining land,
 - groundwaters and surface waters,
 - ecological systems,
 - archeological sites and ancient monuments;
- (iii) an appraisal of remedial options, and proposal of the preferred option(s). This must be conducted in accordance with DEFRA and the Environment Agency's 'Model Procedures for the Management of Land Contamination, CLR 11'.

2. Submission of Remediation Scheme

A detailed remediation scheme to bring the site to a condition suitable for the intended use by removing unacceptable risks to human health, buildings and other property and the natural and historical environment must be prepared, submitted to and approved in writing by the Local Planning Authority. The scheme must include all works to be undertaken, proposed remediation objectives and remediation criteria, timetable of works and site management procedures. The scheme must ensure that the site will not qualify as contaminated land under Part 2A of the Environmental Protection Act 1990 in relation to the intended use of the land after remediation.

High Peak Borough Council

working for our community

3. Implementation of Approved Remediation Scheme

The approved remediation scheme must be carried out prior to the first occupation of the development, unless otherwise agreed in writing by the Local Planning Authority. The Local Planning Authority must be given two weeks written notification of commencement of the remediation scheme works. Following completion of measures identified in the approved remediation scheme, a verification report, that demonstrates the effectiveness of the remediation carried out must be produced, submitted to and approved in writing by the Local Planning Authority.

4. Reporting of Unexpected Contamination

In the event that contamination is found at any time when carrying out the approved development that was not previously identified it must be reported in writing immediately to the Local Planning Authority. An investigation and risk assessment must be undertaken in accordance with the requirements of part 1 of this condition, and where remediation is necessary a remediation scheme must be prepared in accordance with the requirements of part 2 of this condition. Following completion of measures identified in the approved remediation scheme a verification report must be prepared in accordance with part 3 of this condition.

Reason - To ensure that the development can be carried out safely without unacceptable risks in accordance with Policies EQ6 and EQ10 of the High Peak Local Plan 2016 and the National Planning Policy Framework.

14. No development shall take place until monitoring at the site for the presence of ground/landfill gas and a subsequent risk assessment has been carried out in accordance with a scheme to be agreed in writing with the Local Planning Authority. The results of the monitoring shall be submitted to the Local Planning Authority and approved in writing as soon as they are available. If the presence of ground/landfill gas is confirmed, or there is evidence that migration of ground/landfill gas is likely to occur, development shall not commence until satisfactory remedial measures have been taken to control and manage the gas and to monitor the effectiveness of these measures. All such measures shall be agreed in writing by the Local Planning Authority before development takes place.

Reason:- To ensure that risks from land contamination to the future users of the land and neighbouring land are minimised, together with those to controlled waters, property and ecological systems, and to ensure that the development can be carried out safely without unacceptable risks in accordance with Policies EQ6 and EQ10 of the High Peak Local Plan 2016 and the National Planning Policy Framework.

15. No construction/demolition work at the site shall take place outside the following hours:-

- (i) 07:00 hours to 19:00 hours Mondays to Fridays.
- (ii) 08:00 hours to 13:00 hours on Saturdays.

High Peak Borough Council

working for our community

(iii) At any time on Sundays or Public Holidays except by agreement with the Local Planning Authority.

(iv) All deliveries to the site shall be limited to within the above hours.

Any equipment which needs to be operated outside the hours specified above shall be acoustically screened in accordance with a scheme to be agreed in writing with the Local Planning Authority.

No piling shall take place outside the hours 09:00 hours to 16:00 hours Mondays to Fridays

Reason - To ensure that the residential amenities that occupiers can reasonably expect to enjoy are adequately protected in accordance with Policy EQ6 of the High Peak Local Plan and paragraph 17 of the National Planning Policy Framework.

16. There shall be no visible dust emissions beyond the site boundary associated with construction/demolition works undertaken at the site.

Reason - To ensure that the residential amenities that occupiers can reasonably expect to enjoy are adequately protected in accordance with Policy EQ6 of the High Peak Local Plan and paragraph 17 of the National Planning Policy Framework.

17. Before any operations are commenced, space shall be provided within the site for storage of plant and materials, site accommodation, loading, unloading and manoeuvring of goods vehicles, parking and manoeuvring of employees and visitors vehicles, laid out and constructed in accordance with detailed designs first submitted to and approved in writing by the Local Planning Authority. Once implemented the facilities shall be retained free from any impediment to their designated use throughout the construction period.

Reason:- In the interests of highway safety and to accord with Policy CF6 of the High Peak Local Plan.

18. Before any operations are commenced (excluding Condition No 17 above) a new vehicular access shall be formed to the fronting access road in accordance with the submitted site plan drawing, and provided with visibility sightlines extending from a point 2 metres from the carriageway edge, measured along the centreline of the access, for a distance of 18 metres in each direction measured along the nearside carriageway edge. The land in advance of the visibility sightlines shall be retained throughout the life of the development free of any object greater than 1m in height (0.6m in the case of

High Peak Borough Council

working for our community

vegetation) relative to adjoining nearside carriageway channel level.

Reason:- In the interests of highway safety and to accord with Policy CF6 of the High Peak Local Plan.

19. No dwelling shall be occupied until space has been laid out within the site in accordance with the submitted site plan drawing for 3 cars to be parked and for vehicles to turn so that they may enter and leave the site in forward gear. These facilities shall thereafter be retained for use at all times.

Reason:- In the interests of highway safety and to accord with Policy CF6 of the High Peak Local Plan.

20. Notwithstanding the provisions of The Town and Country Planning (General Permitted Development) (England) Order 1995 (as amended by The Town and Country Planning (General Permitted Development) Order 2015), or any Order revoking or re-enacting or amending that Order with or without modification, no development within Schedule 2 Part 1, Classes A-E shall take place on the dwelling house hereby permitted or within its curtilage.

Reason:- In the interests of the amenity of the area and to enable the Local Planning Authority to consider individually whether planning permission should be granted for additions, extensions or enlargements, in accordance with Policy EQ6 of the High Peak Local Plan 2016 and the National Planning Policy Framework.

21. The first floor windows in the east facing elevation of the dwelling hereby approved shall be fitted with obscure glass and shall not be altered to clear glazing without the prior approval in writing of the Local Planning Authority. Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) Order 2015 (or as subsequently may be amended or re-enacted) this/these window(s) shall not be re-glazed with any transparent materials or enlarged or otherwise altered, nor shall any additional door, window or other opening be formed in that elevation unless a further planning permission has first been granted on application to the Local Planning Authority.

Reason:- To protect the privacy of future occupiers of the site and any future occupiers of properties on the adjacent housing site in accordance with Policies EQ6 and DS4 of the High Peak Local Plan.

Summary of reasons for granting planning permission

High Peak Borough Council

working for our community

The Council has sought (negotiated) a sustainable form of development which complies with the provisions of paragraphs 186-187 of the NPPF.

Informatives

A. The application site is affected by a public Right of Way, Footpath No 50 on the Derbyshire Definitive Map. The route must remain unobstructed on its legal alignment at all times and the safety of the public using it must not be prejudiced either during or after development works take place. Further advice can be obtained by calling 01629 533190 and asking for the Rights of Way Duty Officer. Please note that:-

- The granting of planning permission is not consent to divert or obstruct a public right of way.
- If it is necessary to temporarily obstruct a right of way to undertake development works then a temporary closure is obtainable from the County Council. Please contact 01629 533190 for further information and an application form.
- If a right of way is required to be permanently diverted then the Council that determines the planning application (The Planning Authority) has the necessary powers to make a diversion order.
- Any development insofar as it will permanently affect a public right of way must not commence until a diversion order (obtainable from the planning authority) has been confirmed. A temporary closure of the public right of way to facilitate public safety during the works may then be granted by the County Council.
- To avoid delays, where there is reasonable expectation that planning permission will be forthcoming, the proposals for any permanent stopping up or diversion of a public right of way can be considered concurrently with the application for the proposed development rather than await the granting of permission.

B. Please be aware that the responsibility for safe development and secure occupancy of the site rests with the developer.

- Any approved noise scheme and measurements should pay due regard to British Standard BS8233: 2014 Sound insulation and noise reduction for buildings (Guidance Document), BS4142 Methods for rating and assessing industrial and commercial sound and the Building Regulations 2010 Document E or other appropriate guidance.
- Advice on controlling flies and light can be found in: Statutory Nuisance from Insects and Artificial Light (DEFRA 2005) available as a free download <http://archive.defra.gov.uk/environment/quality/local/legislation/cnea/documents/statnuisance.pdf>
- A Demolition or refurbishment asbestos survey and risk assessment should be carried out prior to the demolition of the existing buildings. The enforcing authority for this type of work is the Health and Safety Executive (HSE) and it is recommended that you contact them

High Peak Borough Council

working for our community

directly to discuss their requirements: <http://www.hse.gov.uk/>

- During any demolition and construction activities (including landscaping) the contractor shall take all reasonable steps to prevent dust formation and prevent any dust formed from leaving the site boundary.
- The control of dust and emissions from construction and demolition Best Practice Guidance, produced by the greater London councils <http://www.london.gov.uk/sites/default/files/BPGcontrolofdustandemissions.pdf>
- Building Research Establishment Guidance Document 'Control of Dust from Construction and Demolition Activities' (BR456)
- If required, contamination risk assessments shall be carried out in accordance with UK policy and with the procedural guidance relating to the contaminated land regime, and should be in accordance with Planning Policy Statement 23 and the CLR Report Series 1-12.
- Submission of reports should also be made to the Environment Agency for comment with regard to their remit to protect ground and surface waters from pollution and their obligations relating to contaminated land.
- The Local Planning Authority will determine the acceptability of reports on the basis of the information made available to it. Please be aware that should a risk of harm from contamination remain post development, where the applicant had prior knowledge of the contamination, the applicant is likely to be liable under Part II (a) of the Environmental Protection Act 1990 and as such become an "appropriate person". In this event the applicant will be lawfully responsible to remove the risk posed by the contamination.
- Equally if during any site works a pathway for any contaminant on site is created and humans, waters, property or ecological systems are exposed to this, the applicant or those acting on behalf of the applicant will be liable under part II (a) of the Environmental Protection Act 1990 if the risks are not adequately addressed during the site redevelopment.
- During investigation and remediation works the applicant and those acting on behalf of the applicant must ensure that site workers, public property and the environment are protected against noise, dust, odour and fumes
- The applicant is advised that should there be a requirement as part of the Remediation Strategy to treat, reuse or remove contaminated material on the site, the Environment Agency must be consulted, as these activities may need to be licensed or permitted. Contaminated materials identified for removal off site must be disposed of in an appropriately licensed landfill site.
- High Peak Borough Council is keen to liaise with all stakeholders involved in this application. As such, we recommend that a proposed scope of works is forwarded to the Environmental Protection Department and agreed in principle prior to site investigation works being undertaken. The Environmental Protection Department is also prepared to

High Peak Borough Council

working for our community

review draft copies of reports prior to final submission to the Planning Department in order to ensure that works undertaken are sufficient to discharge the contaminated land conditions.

On behalf of High Peak Borough Council

NOTES

1. Approval under the Building Regulations may also be required. Advice in this respect can be obtained by contacting the Councils Building Control Section.
2. Where a vehicle is often driven across a grass verge or kerbed footway to and from premises adjoining a highway, the occupier of the premises may, be required to pay the cost of construction of a crossing, and/or may be required to comply with conditions, imposed by the Authority. You should contact the Highway Authority at Derbyshire County Council.
3. This consent is granted subject to conditions and it is the owner(s) and the person(s) responsible for the implementation of the development who will be fully responsible for their compliance throughout the development and beyond. **A fee is payable to us for the discharge of condition. Please refer to our web site : www.highpeak.gov.uk for details.** If there is a condition that requires work to be carried out or details to be approved prior to the commencement of the development this is called a “condition precedent”. The following should be noted with regards to conditions precedent:
 - (a) If a condition precedent is not complied with, the whole of the development will be unauthorised and you may be liable to enforcement action.
 - (b) Where a condition precedent is breached and the development is unauthorised, the only way to rectify the development is the submission of a new application.
4. Other conditions on this permission must also be complied with. Failure to comply with any condition may render the owner(s) and the person(s) responsible for the implementation of the development liable to enforcement action.
5. The permission is granted in strict accordance with the approved plans. It should be noted however that:
 - (a) Any variation from the approved plans following commencement of the development irrespective of the degree of variation will constitute unauthorised development and may be liable to enforcement action.
 - (b) Variation to the approved plans will require the submission of a new planning application.
6. If you are aggrieved by the decision of your local planning authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under section 78 of the Town and Country Planning Act 1990.
7. If the decision to refuse planning permission is for a householder application, and you want to appeal against your local planning authority’s decision then you must

High Peak Borough Council

working for our community

do so within 12 weeks of the date of this notice. All other types of development have a 6 month deadline for submission of appeals. Appeals must be made using a form which you can get from the Planning Inspectorate at Temple Quay House, 2 The Square, Temple Quay, Bristol BS1 6PN or online at <https://www.gov.uk/appeal-planning-inspectorate#other-ways-to-apply>. The Secretary of State can allow a longer period for giving notice of an appeal, but he will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal. The Secretary of State need not consider an appeal if it seems to him that the local planning authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order. In practice, the Secretary of State does not refuse to consider appeals solely because the local planning authority based their decision on a direction given by him.

8. If either the local planning authority or the Secretary of State refuses permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted. In these circumstances, the owner may serve a purchase notice on the Council (District Council, London Borough Council or Common Council of the City of London) in whose area the land is situated. This notice will require the Council to purchase his interest in the land in accordance with the provisions of Part VI of the Town and Country Planning Act 1990.
