

Hi John,

The revised plans are as we discussed. We will need to attach a condition to show the parapet detail (or request the detail in advance of the decision) in order to secure a design which matches the period of the property.

With regard to joinery details the windows should be vertically-sliding sash windows, recessed to match the original positions. Ideally painted wood or high quality UPVC which exactly replicates design and finish. Condition also boundary and landscaping details, facing materials and railings.

Kind Regards
