Submission: Objection

Comments: Work on this "application" have been ongoing for the past 3 weeks!!!

I understand that "the removal of the front boundary "is to facilitate a parking area.Being as it is just after the only bend in Bowden Lane are there not numerous safety issues??I would certainly not like to be getting in and out of a car there.The space created does not appear to be wide enough to park a car without it sticking out into the road,again leading to the same traffic problems stated before.The property has adequate parking provision provided by the detached garage and parking spot-one of the few on Bowden Lane to enjoy this privilege!!

The work has not been carried out sympathetically in keeping with the area.The original/natural stone was the first thing to be taken away.The road has been left in a mess with dirt and mud everywhere and I am not sure where there is space for "associated landscaping" .

I have lived here 28 years.Parking on Bowden Lane will always be a problem and ,therefore,residents will always have concerns and worry about emergency vehicle access Residents are now having to find alternative places to park their cars so why can't the people who have the luxury of a garage use it without creating an accident waiting to happen.
