Subject: Consultation on planning application

Application number HPK/2021/0055
Applicant name Michelle Rogers
Location 22 Bowden Lane
Chapel en le frith
SK230JQ

Dear Sir

Thankyou for your letter dated 10/02/2021.

I have 2 concerns over the removal of the new front boundary wall and the boundary wall

1. My first concern is for the structural and foundations of the houses , as when the workmen using the heavy machinery to pull the wall down , the foundations were shaking , this also was felt from my neighbours at number 26 .

I asked them to stop explaining the problem , but I was greeted with abuse and the police were called

When the houses were built on Bowden Lane, the foundations were not made to withstand the hammering with that amount of pressure whilst removing the front wall .

I do fear for the stability of my home now .

2. The brickwork chosen by the Applicant is not in keeping with the character and history of Bowden Lane.

All the lane is of the same stonework and has been for over 100 years .

I do believe we are in a Conservation Area ,

Yours faithfully

Jacqueline Wright
