Submission: Objection

Comments: Additional notes to add to my previous concerns .

The design of the parking space has a adverse effect on th character and appearance of the town End Conservation Area.

The design of the parking space is of no merit and has a detrimental effect on the visual amenity of Bowden Lane .

The Construction is very poor , having witnessed the retaining wall slumped , and bulge .

The use of the brickwork is totally inappropriate, all the boundary walls on Bowden Lane are natural grindstone.

Highway issues

The parking space that has been created will mean vehicles parking half on and half off the road. Larger vehicles will be obstructed e.g. The Bin Lorry, Emergency services .

The parking space is to close to the blind bend creating a hazard ,

Owners of 27 Hayfield Road will have access problems to the entrance of their property on Bowden Lane oppersite the parking space.

I share access to my house with number 22 Bowden Lane, A dustbin has been placed where the wall has been removed between our properties , I have to move the bin to gain access through the gate to my home .

When the removal of the wall was in motion , the contractor cut into the armour of a live electricity cable , resulting in the loss of electricity to my home ,

Also other contractors have cut off the water to my home , without a thought to tell me.

The applicant owns a garage and parking space on Bowden Lane, At a guess of 20 steps from the house

Also I fear for the stability of my home due to the heavy machinery removing the wall , the underfloor vibrations were huge , cracks have appeared in the chimney breast wall .

This is new plaster 2018

Please add my objections to my previous correspondence

Kind Regards

Jacqueline Wright
