Phone:

Email:

Submission: Objection

Comments: I object to this planning Application:

1, EMERGENCY SERVICES ACCESS

Occupants at the lower end of Bowden Lane are already at higher risk from fire due to the difficulties with access. The fire brigade have been down giving advise on fire safety and fitting smoke alarms due to this. Parking at this site, sticking out into the road, will add to this risk. Ambulances will also have increased difficulty getting down.

2.GENERAL ACCESS

As above, access is already difficult for bigger vehicles. Parking, partly on the road, will add to this.

3. VISIBILITY CLOSE TO BEND

This site is close to the bend. Parking, partly on the road, adds to the danger of this bend.

4, AESTHETICS

The materials used are not in keeping with the local area and the current finish is poor.
