Submission: Objection

Comments: Object on the grounds of highway safety.

Development will create a new vehicle access onto a road that in addition to the expected traffic in a busy residential area has numerous HGVs using the route to gain access to and operate from Thornsett Trading Estate.

I believe the new vehicle access will have limited exit visibility and that this is likely to be compounded by the fact that although the development plans include some on site parking the likely over spill generated by the [multi bedroom] properties will lead to additional on road parking further restricting visibility.
