Submission: Objection

Comments: We have already strongly opposed this structure that greatly imposes on our family and wellbeing, Please see all previously submitted photos and comments from opposing views . This obscene structure has been refused once by planning, which at that decision greatly improved our families outlook for the future of our wellbeing!, but this application has put us back to our despair of not being able to enjoy our peaceful wellbeing in such an already difficult time, it is a total eyesore to have to endure every waking moment of our already difficult days , I am and have been a key worker throughout the covid epidemic working for throughout the the whole of the last 12 months, my home should be my haven, especially when I have lived at this address for 36 years, I see no other hideous constructions anywhere in the vicinity or surrounding areas and see no sense in this application being passed ! The owners of the construction do not have to see their fantastic construction at their waking moments from private rooms in their property because it faces our property ! It is totally out of their view, and I find it a great insult they would think we don;t mind , I would put it to the planning committee to come into my home and judge if they would like to wake up from their bedrooms bathroom landing downstairs rooms and garden to a hideous theme park construction with strangers hanging of the wall of it looking into their private rooms. This address has already been granted much planning for improvement over the years that has already jeopardised our property and this last application is just far too much for our family to endure. I would greatly appreciate for the planning panel to look further in to the decision made. We live in a place of natural beauty and it seems these people have moved into an area that they do not respect and just want to ignore being neighbourly and disrespect our area ! We my husband and myself were born and brought up in Whaley bridge and although agree with new growth of the village do not want a Theme park image ! Even our local park is tastefully constructed and keeps within nature, not like the primary coloured parks we used to have to endure, but it seems that our neighbours want to make it look out of the ordinary and make a business out of their back yard construction not even having to look at it at any time other than when they are with their customers, which they are denying they have ! This is a potential business adventure which my family will have to deal with. We are and have been paying our council taxes for many years and think we are entitled to the objection of this planning going ahead Please see all previous comments and photographs before making your decision , With Thanks mr Mrs A J Greaves
