Consultation on Planning Application

20 March 2021

Dear Sirs,

App. No. HPK/2021/0051 - High Hill Road, New Mills

We are fully aware of the need for more housing.

We are very concerned that High Hill Road is not suitable for any increase of traffic and that the surface of the road is in desperate need of a complete overhaul.

The road is already hazardous with heavy lorries having to mount the footpaths when passing each other and/or parked vehicles.

We are lead to believe that the land opposite Watburn Road contains an old culvert which connects with a deep manhole behind No. 4 Watburn Road.

Is it sensible (or allowable) to build a terrace of 5 new houses over such an old culvert?

Yours faithfully,

E.J.A. & J.A. Bennett
