Submission: Objection

Comments: I have seen the proposed alterations to 191 Macclesfield road Whaley bridge HPK/2021/0103 . I would just like to first bring to the attention of the planning committee the lack of Empathy or consideration that Mr Mrs Dyer have had towards ourselves and surrounding properties that have to live with the view of their construction/ eyesore on a daily basis from our properties, The proposed alterations would not make any impact at all on us ! The roof situation would make no impact as it would still greatly block out light to our property , this would only further help the Dyers looking at a nicer material, for us it is a dark depressing view to endure daily, The Dyers property was granted planning for the extension of the house a few years ago and we were already greatly affected by this taking certain light away from our property and with this new addition to buildings on their plot we are greatly affected by lack of light and encroachment on privacy and wellbeing, as far as the muted colours are concerned they would absolutely make no difference for us, as we would still have to endure people/strangers peering into our home . The only thing that would help would be to remove it and regain being neighbours living in beautiful countryside and appreciating what we already have Without the need for hideous constructions that only enables grown adults a few moments of pleasure. I don't need to tell you how close we are to natural beauty spots including Windgather rocks that are moments away from our properties! I would also stress that you look at our previous comments and photographs of how my property looked when we moved in and to what has happened up to present day with thanks mr Mrs Greaves
