Submission: Neither

Comments: The public right of way through this site must be maintained. It is unacceptable to close it against their agreement and then attempt to have it re-routed. Why is the tail constantly wagging the dog with High Peak BC Planning! Get it sorted. This has been a right of way for 300 years. I don't see what this developer is doing so beautifully that they deserve any favours. I often used to walk this way. People have been reasonable and patient through the early stages of their build and at this stage provision MUST be made available.
