I'd like to raise concerns regarding the ongoing closure of the footpath impacted by this planning application. As a resident of Cadster this footpath provides an alternative to the busy b5470 for us to walk to Whaley Bridge and it's closure is very inconvenient. I note in the planning that an alternative was to be provided but it hasn't. Please can you advise when this will be reopened and reassurance that it will be reopened.

Kind Regards
Nicola Freeman
