Submission: Objection

Comments: It was claimed this footpath would remain open. It was then closed and has been for about a year. These people obtained building permission based on a lie, ¿There is a public footpath through the site and it is the intention to keep this operational throughout the project. There will be provision of a fenced off pedestrian walkway that will have to cross the vehicle route at one signed and designated position.¿ and they need to reopen this path or have building permission revoked.
