Subject: Shallcross foundry

Hi

HFP/2020/0002

I am e mailing, as are many, to strongly object to the footpath being diverted. This is a long standing and much used PUBLIC footpath. This estate was tolerated because of the promise the path would be opened again ASAP. . The builders should have said it was their intention to apply for permanent closure in the application. The diversion is a long way up Elnor Lane . I therefore am letting it be known I object. I also think that the notice of problems should be before people comment and presume ,as I did, that the objection has gone through

Cllr Kath Thomson.
