Bowden Hall

Its not actually very clear what this application is seeking permission for. The application form mentions subdivision to create two houses (incorporating the consented first floor flat into Bowden Hall East) but the red edge doesn't include the whole property. I can see that the alterations will only be in Bowden Hall East but the description of the works mentions the whole building so really the whole hall should be edged red.

There is no clear schedule as to what works are proposed as part of this application. I need a plan showing just the changes proposed as part of this application (not alterations already Consented to). The most significant change appears to be a new staircase but there are no details about where the old service stair used to be, why it is not appropriate to reinstate in this position, and details of the new stair (including impact on significance).
