Application no: HPK/2021/0044

Determined on: 30th July 2021

Town and Country Planning Act 1990
Town and Country Planning (Development Management Procedure) (England) Order 2015

APPROVAL OF RESERVED MATTERS

This permission does not carry any approval or consent which may be required under any enactment, bylaw, order or regulation (e.g. in relation to Building Regulations or the Diversion of Footpaths etc) other than Section 57 of the Town and Country Planning Act, 1990.

Location of Development:

Land Off Dolly Wood Close Buxworth Derbyshire

Description of Development:

Approval of Reserved Matters following outline permission HPK/2016/0108

In pursuance of their power under the above mentioned Act, High Peak Borough Council Planning Authority, **APPROVES** the following matters which have been reserved for later approval on the grant of outline planning permission for development: Access, Appearance, Landscaping, Layout & Scale.

1. The development hereby permitted shall be carried out in accordance with the following approved plans: 534.01 Site Location Plan, 534.22D Site Plan: Landscaping Layout, 534.23B Plots 1-5: Floor Plans and Elevations
Reason:- For the avoidance of doubt and in the interests of proper planning, in accordance with the National Planning Policy Framework.
2. All soft landscaping comprised in the approved details of landscaping shall be carried out in the first planting and seeding season following the first occupation of the building(s) or the completion of the development whichever is the sooner; All shrubs, trees and hedge planting shall be maintained free from weeds and shall be protected from damage by vermin and stock. Any trees or plants which, within a period of five years, die, are removed, or become seriously damaged or diseased shall be replaced in the next planting season with others of a similar size and species, unless otherwise agreed in writing by the Local Planning

High Peak Borough Council

working for our community

Authority. All hard landscaping shall also be carried out in accordance with the approved details prior to the occupation of any part of the development or in accordance with a programme to be agreed in writing with the Local Planning Authority

Reason:- To ensure a satisfactory landscaped setting for the development and the protection of existing important landscape features, in the interests of visual amenity, in accordance with Policies S1 and EQ6 of the High Peak Local Plan 2016 and the National Planning Policy Framework

3. Prior to the commencement of development, full details and/or samples of all external facing materials shall be submitted to, and approved in writing, by the Local Planning Authority. The development shall then be undertaken in strict accordance with the approved details

Reason:- To ensure that the external appearance of the development is appropriate to its surroundings in accordance with Policy EQ6 of the High Peak Local Plan 2016 and the National Planning Policy Framework.

4. The hereby approved development shall not commence until a drainage scheme for the site, showing how foul water, surface water and land drainage will be dealt with, has been submitted to and agreed in writing by the Local Planning Authority. This shall include full details of the proposed rainwater retention system. No part of the development shall be brought into use until the approved drainage systems have been constructed and completed in accordance with the approved plans.

Reason:- To ensure that effective drainage facilities are provided for the proposed development and that no adverse impact occurs to the environment or the existing public sewerage system in accordance with Policy EQ11 of the High Peak Local Plan 2016 and paragraph 166 of the National Planning Policy Framework.

5. The proposed diverted footpath as indicated on the approved site plan shall be fully implemented and made available to the public prior to the commencement of any works affecting the line of the existing route, and thereafter permanently retained.

Reason:- In pursuit of sustainable transport objectives in accordance with Policy CF6 of the High Peak Local Plan 2016 and the National Planning Policy Framework.

6. Any waste material associated with the demolition or construction shall not be burnt on site but shall be kept securely for removal to prevent escape into the environment. There shall be no fires lit on the site for purpose of disposing of demolition materials. Any open fires that arise shall be extinguished without delay.

Reason - To ensure that the residential amenities that occupiers can reasonably expect to enjoy are adequately protected in accordance with Policy EQ6 of the High Peak Local Plan

7. The best practicable means, as defined in Section 72 of the Control of Pollution Act 1974 to reduce noise and vibration from the site to a minimum, shall be employed at all times during construction.

High Peak Borough Council

working for our community

Reason - To ensure that the residential amenities that occupiers can reasonably expect to enjoy are adequately protected in accordance with Policy EQ6 of the High Peak Local Plan

8. If piling is necessary, a written method statement shall be submitted to and approved in writing by the Local Planning Authority. The affects of noise generation (hours of operation) shall be considered, and shall include noise mitigation measures consistent with best practical means. No piling shall take place until the method statement has been approved and piling shall only take place in accordance with the approved method statement.

Reason - To ensure that the residential amenities that occupiers can reasonably expect to enjoy are adequately protected in accordance with Policy EQ6 of the High Peak Local Plan.

9. The first floor rear-facing window of the unit at plot 4, shown serving a bathroom, shall be obscured glazed to level 3 or higher on the Pilkington scale of privacy or equivalent and shall be non-opening up to a minimum height of 1.7m above the internal floor level of that room. Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) Order 2015 (or as subsequently may be amended or re-enacted) this/these window(s) shall not be re-glazed with any transparent materials or enlarged or otherwise altered, nor shall any additional door, window or other opening be formed in that elevation unless a further planning permission has first been granted on application to the Local Planning Authority.

Reason:- To safeguard the privacy of both the occupants of the adjacent property and of the development hereby approved, in accordance with Policy EQ6 of the High Peak Local Plan 2016.

10. No dwelling shall be occupied until space has been laid out within the site in accordance with the application drawing for cars to be parked and for vehicles to turn so that they may enter and leave the site in a forward gear. Once provided, such spaces shall be maintained free from any impediment to their designated use for the life of the development.

Reason:- To ensure that adequate provision is made for parking within the site in the interests of highway safety, in accordance with Policy CF6 of the High Peak Local Plan 2016 and the National Planning Policy Framework.

11. Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) Order 2015 (or any Order revoking and/or re-enacting that Order) the garages hereby permitted shall be retained as such and shall not be used for any purpose other than the garaging of private motor vehicles associated with the residential occupation of the property without the grant of further specific planning permission from the Local Planning Authority.

Reason:- To ensure that adequate provision is made for parking within the site in the interests of highway safety, in accordance with Policy CF6 of the High Peak Local Plan 2016 and the National Planning Policy Framework.

12. Private drives shall not exceed a maximum longitudinal gradient of 1:14

High Peak Borough Council

working for our community

Reason - In the interests of highway safety in accordance with Policy CF6 of the High Peak Local Plan.

13. There shall be no gates or other barriers on the private drive.

Reason - In the interests of highway safety in accordance with Policy CF6 of the High Peak Local Plan.

Informatives

The Local Planning Authority (LPA), in reaching this decision, has followed the guidance in paragraph 38 of the National Planning Policy Framework. The Framework advises that the LPA should work proactively with applicants to secure developments that improve the economic, social and environmental conditions of the area.

Highways

1. Pursuant to Section 184 of the Highways Act 1980 and Section 86(4) of the New Roads and Streetworks Act 1991 prior notification shall be given to the Department - Place at County Hall, Matlock regarding access works within the highway. Information, and relevant application forms, regarding the undertaking of access works within highway limits is available via the County Council's website

<https://www.derbyshire.gov.uk/transport-roads/roads-traffic/licences-enforcements/vehicular-access/vehicle-accesses-crossovers-and-dropped-kerbs.aspx>

E-mail highways.hub@derbyshire.gov.uk or

Telephone Call Derbyshire on 01629 533190.

2. The Highway Authority recommends that the access and driveways should not be surfaced with a loose material (i.e. unbound chippings or gravel etc). In the event that loose material is transferred to the highway and is regarded as a hazard or nuisance to highway users, the Authority reserves the right to take any necessary action.

3. Pursuant to Sections 149 and 151 of the Highways Act 1980, steps shall be taken to ensure that mud or other extraneous material is not carried out of the site and deposited on the public highway. Should such deposits occur, it is the applicant's responsibility to ensure that all reasonable steps (e.g. street sweeping) are taken to maintain the roads in the vicinity of the site to a satisfactory level of cleanliness.

4. The application site is affected by a Public Right of Way (Footpath 18 on the Derbyshire Definitive Map). The route must remain unobstructed on its legal alignment at all times and the safety of the public using it must not be prejudiced either during or after development works take place. Further advice can be obtained by calling 01629 533190.

- Please note that the granting of planning permission is not consent to divert or obstruct a public right of way.

- If it is necessary to temporarily obstruct a right of way to undertake development works then a temporary closure is obtainable from the County Council. Please contact 01629 533190 for further information and an application form.

High Peak Borough Council

working for our community

- If a right of way is required to be permanently diverted then the Council that determines the planning application (The Planning Authority) has the necessary powers to make a diversion order.
- Any development insofar as it will permanently affect a public right of way must not commence until a diversion order (obtainable from the planning authority) has been confirmed. A temporary closure of the public right of way to facilitate public safety during the works may then be granted by the County Council.
- To avoid delays, where there is reasonable expectation that planning permission will be forthcoming, the proposals for any permanent stopping up or diversion of a public right of way can be considered concurrently with the application for proposed development rather than await the granting of permission.

5. The following clause shall be included in the deeds of the dwellings to ensure that at no time will adoption of any part of the access road be sought:

“The lessee or purchaser shall not at any time, either alone or jointly with others, seek adoption of any part of the driveway intended to serve the development as a highway maintainable at the public expense, it being the intention that same shall at all times remain private up to the point where the same abuts the existing publicly maintainable highway.

Environmental Health

- Any approved noise scheme and measurements should pay due regard to British Standard BS8233: 2014 Sound insulation and noise reduction for buildings (Guidance Document), BS4142 Methods for rating and assessing industrial and commercial sound and the Building Regulations 2010 Document E or other appropriate guidance.
- Advice on controlling flies and light can be found in: Statutory Nuisance from Insects and Artificial Light (DEFRA 2005) available as a free download <http://archive.defra.gov.uk/environment/quality/local/legislation/cnea/documents/statnuisance.pdf>
- A Demolition or refurbishment asbestos survey and risk assessment should be carried out prior to the demolition of the existing buildings. The enforcing authority for this type of work is the Health and Safety Executive (HSE) and it is recommended that you contact them directly to discuss their requirements: <http://www.hse.gov.uk/>
- During any demolition and construction activities (including landscaping) the contractor shall take all reasonable steps to prevent dust formation and prevent any dust formed from leaving the site boundary.
 - The control of dust and emissions from construction and demolition Best Practice Guidance, produced by the greater London councils <http://www.london.gov.uk/sites/default/files/BPGcontrolofdustandemissions.p>

High Peak Borough Council

working for our community

- [df](#) Building Research Establishment Guidance Document 'Control of Dust from Construction and Demolition Activities' (BR456)
- If required, contamination risk assessments shall be carried out in accordance with UK policy and with the procedural guidance relating to the contaminated land regime, and should be in accordance with the National Planning Policy Framework and DEFRA Land Contamination Risk Management (LCRM) guidance.
 - Submission of reports should also be made to the Environment Agency for comment with regard to their remit to protect ground and surface waters from pollution and their obligations relating to contaminated land.
 - The Local Planning Authority will determine the acceptability of reports on the basis of the information made available to it. Please be aware that should a risk of harm from contamination remain post development, where the applicant had prior knowledge of the contamination, the applicant is likely to be liable under Part II (a) of the Environmental Protection Act 1990 and as such become an "appropriate person". In this event the applicant will be lawfully responsible to remove the risk posed by the contamination.
 - Equally if during any site works a pathway for any contaminant on site is created and humans, waters, property or ecological systems are exposed to this, the applicant or those acting on behalf of the applicant will be liable under part II (a) of the Environmental Protection Act 1990 if the risks are not adequately addressed during the site redevelopment.
 - During investigation and remediation works the applicant and those acting on behalf of the applicant must ensure that site workers, public property and the environment are protected against noise, dust, odour and fumes
 - The applicant is advised that should there be a requirement as part of the Remediation Strategy to treat, reuse or remove contaminated material on the site, the Environment Agency must be consulted, as these activities may need to be licensed or permitted. Contaminated materials identified for removal off site must be disposed of in an appropriately licensed landfill site.
 - High Peak Borough Council is keen to liaise with all stakeholders involved in this application. As such, we recommend that a proposed scope of works is forwarded to the Environmental Protection Department and agreed in principle prior to site investigation works being undertaken. The Environmental Protection Department is also prepared to review draft copies of reports prior to final submission to the Planning Department in order to ensure that works undertaken are sufficient to discharge the contaminated land conditions.

Sewerage

Severn Trent Water advise that although our statutory sewer records do not show any public sewers within the area you have specified, there may be sewers that have been recently adopted under The Transfer Of Sewer Regulations 2011. Public sewers have statutory protection and may not be built close to, directly over or be diverted without consent and you are advised to contact Severn Trent Water to discuss your proposals. Severn Trent will seek to assist you obtaining a solution

which protects both the public sewer and the building

NOTES

1. Approval under the Building Regulations may also be required. Advice in this respect can be obtained by contacting the Councils Building Control Section.
2. Where a vehicle is often driven across a grass verge or kerbed footway to and from premises adjoining a highway, the occupier of the premises may, be required to pay the cost of construction of a crossing, and/or may be required to comply with conditions, imposed by the Authority. You should contact the Highway Authority at Derbyshire County Council.
3. This consent is granted subject to conditions and it is the owner(s) and the person(s) responsible for the implementation of the development who will be fully responsible for their compliance throughout the development and beyond. **A fee is payable to us for the discharge of condition. Please refer to our web site : www.highpeak.gov.uk for details.** If there is a condition that requires work to be carried out or details to be approved prior to the commencement of the development this is called a “condition precedent”. The following should be noted with regards to conditions precedent:
 - (a) If a condition precedent is not complied with, the whole of the development will be unauthorised and you may be liable to enforcement action.
 - (b) Where a condition precedent is breached and the development is unauthorised, the only way to rectify the development is the submission of a new application.
4. Other conditions on this permission must also be complied with. Failure to comply with any condition may render the owner(s) and the person(s) responsible for the implementation of the development liable to enforcement action.
5. The permission is granted in strict accordance with the approved plans. It should be noted however that:
 - (a) Any variation from the approved plans following commencement of the development irrespective of the degree of variation will constitute unauthorised development and may be liable to enforcement action.
 - (b) Variation to the approved plans will require the submission of a new planning application.
6. If you are aggrieved by the decision of your local planning authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under section 78 of the Town and Country Planning Act 1990.
7. If the decision to refuse planning permission is for a householder application, and you want to appeal against your local planning authority’s decision then you must do so within 12 weeks of the date of this notice. All other types of development

High Peak Borough Council

working for our community

have a 6 month deadline for submission of appeals. Appeals must be made using a form which you can get from the Planning Inspectorate at Temple Quay House, 2 The Square, Temple Quay, Bristol BS1 6PN or online at <https://www.gov.uk/appeal-planning-inspectorate#other-ways-to-apply>.. The Secretary of State can allow a longer period for giving notice of an appeal, but he will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal. The Secretary of State need not consider an appeal if it seems to him that the local planning authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order. In practice, the Secretary of State does not refuse to consider appeals solely because the local planning authority based their decision on a direction given by him.

8. If either the local planning authority or the Secretary of State refuses permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted. In these circumstances, the owner may serve a purchase notice on the Council (District Council, London Borough Council or Common Council of the City of London) in whose area the land is situated. This notice will require the Council to purchase his interest in the land in accordance with the provisions of Part VI of the Town and Country Planning Act 1990.
9. Developers should also be aware of the provisions of the Gas Safety Regulations 1972 and Gas Safety (Installation and Use) Regulations 1984. It is possible that the existing gas service pipe which lies within the area of the proposed extension of alterations which will contravene the provisions of these Regulations. It is necessary that you contact British Gas, North West House, Gould Street, Manchester, M4 4DJ, who will advise if the existing gas service pipe requires alterations.
