Submission: Objection

Comments: I don't think the proposed application is in keeping with the type of properties in existence on the road . It will clearly stand out as not been compatible to the surrounding area. The site is small in size to accommodate the size of property being proposed. Traffic is already an issue and double parking a constant problem, one would presume that property of this occupancy levels would require parking for at least two cars, putting pressure on already stretched resources. I do not object in principle to a dwelling as long it's of a size of dwelling that fits in within the locality, being the majority 2/3 bed terraced house and that there is sufficient parking within the plot size. If approved I would like to put forward that contractors operate between 9-5, Mon-Fri, as the locality is a residential area.
