THE
HARRIS
PARTNERSHIP

Dear Sir/Madam

Aldi Store – Foxlow Farm, Buxton

Condition 14: Scheme for the Repair, Future Maintenance and Management of Dry Stone Walls

We confirm, on behalf of Aldi Stores Ltd, that the existing and proposed dry stone walls on the site will be repaired, maintained, and managed in an appropriate manner.

The strategies identified in this statement are in line with Government guidelines for protecting rural landscapes and features:

- The dry-stone walls will be inspected annually, and a photo record of their condition made
- Any vegetation will be removed to help 'air' the wall and prevent frost damage
- Trees will be prevented from growing alongside, as their roots can weaken wall foundations
- Any required repairs will be undertaken by a suitably qualified Dry Stone Waller

Yours faithfully
The Harris Partnership Limited

David J Evans
Group Director
