Description of Proposed Works

Please describe the proposed works

Create 4m x 4m wooden/composite decking area with wooden spindle safety balustrade at side of house. The wood will be in a colour such as mid-oak that tones in with the surroundings. There already exists a crazy paved path about one metre wide on that side of the house and the decking will straddle this, so the decking will only be about three metres wider than existing path. The ground slopes downwards from the house over a rockery - thus the requirement for the balustrade.

Details of the pre-application advice received

Offered general application advice, including that as the land over which the decking would be erected slopes downwards, the height of decking will exceed permitted development. Therefore, requires planning consent.

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
