Submission: Objection

Comments: I object to this planning application on the grounds that the traffic situation on Church Lane is already at dangerous levels. Church Lane residents currently have to deal with extensive traffic for the two schools, church, church hall along with overspill from the Surgery and leisure centre on Hyde Bank road alongside of walkers accessing the sett valley trail. On match days the parking situation is already exponentially exceeding what Church Lane can cope with, and visitors double parking preventing access to emergency services (few years ago, a match had to be stopped as coupled with an open evening at the high school, the road and footpaths were completely blocked and a fire engine could not get through) allowing more new houses in church lane taking away the already strained parking for the football ground would be a dangerous disaster waiting to happen. As a resident on Church Lane, I have had no consultation from the applicant whatsoever
