Submission: Objection

Comments: The pedestrian crossing at the top of Church road is a site where pedestrians who are crossing when the lights indicate red to traffic, are regularly hit. I use this pedestrian crossing several times each week and have encountered drivers who coming from Furness Vale don't look at the lights. The crossing is much too close to the crossroads.

In addition the volume of traffic using Church Lane from two schools, a large Church and also on Match days creates gridlock. At peak traffic times the volume increases since Marsh Lane and Church Lane are used as a short cut to the North side of the river Sett. Just opposite my house 37 houses (Marsh Mills) are in the throes of completion meaning the volume of traffic using the crossroads will increase the already heavy traffic.

Also the air quality will be adversely affected.

For the aforementioned reasons I am vehemently against the application.
