Submission: Objection

Comments: I currently object to this application due to the lack of provision for services for current and new residents of Glossop. Adding 100 new homes to an under serviced town is folly. The current road system is under funded and over crowded, public services such as schools and doctors have not been expanded, public transport is shrinking. The fire, ambulance, hospital and police services should be improved before adding more residents to the over stretched services. This investment is a must to ensure the safety and wellbeing of all existing and new residents. Perhaps the numerous building companies involved in projects in and around Glossop could give back to the community that has accepted the inconvenience of their activities over the years.
