Submission: Neither

Comments: Thank you for the opportunity to comment upon this proposal. The application form states that no footpaths are affected by it. However, footpath 177 runs adjacent to the site and it looks as though the new access road might indeed run over hte current line of the path. It is difficult to tell exactly. Whilst in the long term the path will be unaffected we would request that a condition is applied to any permission granted that this footpath should remain open and safe to use during and after the works.
