Submission: Objection

Comments: There are other areas with derelict buildings not being used, when this area you are proposing is a Dave haven for wildlife and nature that the current residents need for their well-being.

The travel plan doesnt show anything useful. There are virtually no cycle paths or walking spaces that are safe in Glossop and building these houses with more space for parking does not in any way address these issues.

I think Glossop is one of the worst supported areas for sustainable travel so I don't see how they can not invest in this and build yet more houses without cycle routes and safe crossing points.

Affordable housing should be flats built upwards in lovely grounds with access via cycle paths and walkways like some places in Europe do. I don't see how this proposal of housing will benefit the area or produce affordable housing fit for purpose.
