Submission: Objection

Comments: Simmondley and Dinting are constant ratrace . Simmondley Lane is mostly single traffic access as one side of the road is used as a carpark . The 2 infant schools in the area are a danger zone for the children going and coming to school . Traffic the total volume is my main concern and a accident waiting to happen. There is a lovely wildlife area area for birds owls deer foxes bat's newts . It's so also nice area for walkers . The area is prone to flooding and as its at the foot of a steep hill the run off water poses a constant threat to local residents . There are many reasons why building in this area should be refused .
