Unfortunately it is not possible to upload images to confirm the state of parking on Longclough Drive, but please contact me if you want to see the reality of what is proposed if this planning application is granted.

Today (12/11/22) from the top of our row of houses (2 to 12 Longclough drive) cars are double parked, bumper to bumper all the way down to the bend of the road. The new proposed house and associated driveways would remove road space for approximately 8 cars. Where will these cars park? There are no alternative parking spaces on this road. There is nowhere for visitors to park; no place for delivery drivers.

As a generally quiet cul de sac I can trust my two young children to cross the road safely, but double-parked, bumper to bumper vehicles means a small child's only option is to step out between cars and onto the road to check for oncoming traffic.

So many people (non-residents included) have commented with great sadness and disgust at the current state of the proposed site: the chopping down of a dozen (2 dozen?) beautiful old trees. The company employed to cut them down repeatedly assured me in person that they were just 'receiving a trim,' but that was a lie. They have been chopped down. The trees with TPO's which we were told would remain have been chopped down. Before you make a decision please spend 2 minutes to come and actually see what has happened at this site.

As for replanting and replacing trees, come back in 50 years and tell me I was wrong to trust this building company. Will this space have been replaced and restored to its former glory? We all know it won't. It will all be concrete.

These decisions are destroying the very character of this town and you are the only ones who can stop it. Please stop this.
