Submission: Objection

Comments: In a town where traffic is already a large issue, where there is a lack of choice for education unless you want to board a bus, where you can't get an NHS dentist for 4 years, should we really be adding to the problem?

- The land also which is proposed for land building is a rich path way for local wildlife.
- The land actively prevents much more significant flooding than already troubles the area.

No new homes until local infrastructure can cope!
