I object to this planning application. My children attend Dinting Primary School and the prospect of hazards on the already congested A57 access point by the school is extremely concerning as detrimental to the populations health and safety. If the houses are built there is likely to be one 100 cars that will be entering and exiting that road during school drop off and pick up times. The air is already polluted there when traffic is at peak, and the additional cars would make this even worse still.

The lack of infrastructure in the town is also a big concern. Will there be school places for the families that move there? Will doctors and dentists in the local area be able to take on patients? I hope all of these points are seriously considered and Wain Homes look to develop elsewhere.
