Submission: Neither

Comments: As Chairman of the neighbouring cricket club (Dinting Cricket Club) I would request the planners to consider the erection of fencing/netting to protect the houses from cricket balls being hit from the neighbouring cricket pitch which is within striking distance of the houses.

Other cricket clubs have successfully requested this on other developments and we would like to protect ourselves from any future claims that could potentially lead to injury/death of the residents if/when the dwellings are approved.

This would appease fears of the committee and players of potential legal events that could occur and we feel it the responsibility of the applicants to consider this as the cricket club has been in situ since 1878 and would not have been considered if the developments hadn't occurred.
